Kitchen Countertops

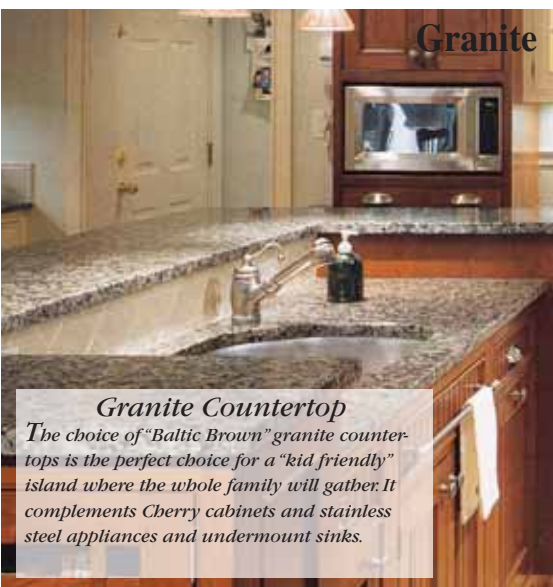

Corian Countertops
Life revolves around the surfaces in your home. Especially in the kitchen and bath. They're the part of your home you're in contact with the most. So it makes sense to choose surfaces you can enjoy living with year after year. Surfaces that can stand up to wear and tear.

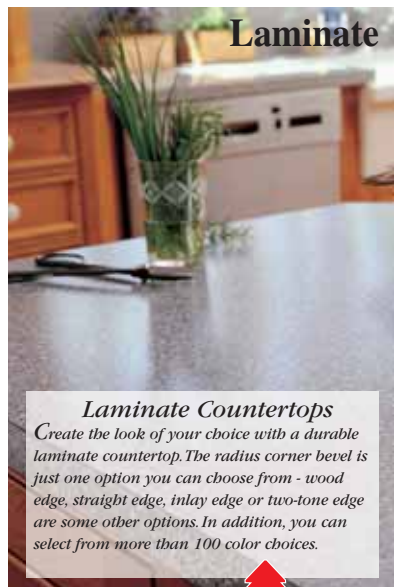

CaesarStone Countertops
CaesarStone® is the original quartz-based engineered stone primarily used for kitchen countertops and bathroom vanities. CaesarStone is 93% crushed quartz, one of nature's hardest minerals.

Silestone Countertop
Available in a vast array of colors, and is resistant to marring. The quartz material does not require sealing, nor does it stain due to its impermeability. The counter shown is rain forest and is shown in use on a peninsula island and countertop.

Granite Countertop
The choice of "Baltic Brown" granite countertops is the perfect choice for a "kid friendly" island where the whole family will gather. It complements Cherry cabinets and stainless steel appliances and undermount sinks.

Laminate Countertops
Create the look of your choice with a durable laminate countertop. The radius corner bevel is just one option you can choose from - wood edge, straight edge, inlay edge or two-tone edge are some other options. In addition, you can select from more than 100 color choices.
