BRANCH DIRECTOR LETTER

Dear Northeast STIHL Dealers,

2023 proved to be another challenging but successful year for Northeast STIHL as we returned to a more normal business environment. Product availability improved throughout the year and demand for STIHL products remained strong. This is in spite of the late arrival of spring and a very wet summer in much of NES territory. As always, we want to thank you, our independent servicing dealers, for your loyalty and support in making STIHL and Northeast STIHL the number one choice in outdoor power equipment for both the professional and homeowner.

Inventory levels at Northeast STIHL have continued to improve and our fill rates have edged closer to what you have been accustomed to in the past. While we still see a few products with tight availability, we look forward to shipping the 2024 Spring Pre-Season booking orders at the highest fill rate since 2020. We ask that you continue to work with your territory managers when addressing inventory issues in the field, and once again we appreciate your support.

The past year saw the launch of our RZ mower line as well as many new battery products. These new products and promotions were aimed at continuing to drive both returning and new customers through your doors. 2023 saw a record number of promotions designed for both reducing your on-hand inventory while also driving additional sales to your dealerships. STIHL continued to expand our battery lineup with the introduction of our FA 08 series. This series includes the FSA 80, FSA 80R and KMA 80 products in our AK line, as well as the FSA 120, FSA 120R and KMA 120 in our AP line. These products along with the expansion of our AS line including the HSA 30, HSA 40 and SEA 20 handheld vacuum will help bring increased awareness to the STIHL battery lineup ensuring we offer a battery solution to all types of customers.

As we look ahead to 2024, STIHL will continue to expand our product offerings. The launch of our first RZA battery powered zero turn mowers and introduction to the US market of our gas-powered walk behind mowers will no doubt keep the STIHL brand and dealers top of mind when it comes to finding solutions to all types of outdoor power equipment needs, both now and in the future.

In addition to our continued focus on product development and innovation, in 2024 STIHL will roll out the most comprehensive list of spring promotions in company history . These promotions are designed for all types of end users and will include not only many consumer battery promotions, and enhancements such as the doubling of the consumer warranty with any additional battery purchase, but will also include strong gas promotions, such as save $60 on the FS 91R and save $30 on our FS 56R; two of our most popular gas trimmers. Our contractors and construction customers will be excited to see that all our TS units will be $50 off through the end of March. Last, we continue to focus on our high margin accessories by offering 20% off of most hand tools, 10% off select .095 and .105 3lb and 5lb trimmer spools and an additional 5% of our top moving spare parts when placed on the Spring Pre-Season Booking order. Please click on this link to view all 2024 spring promotions.

*Please plan to attend one of our 30 STIHL University classes this year to help you and your associates prepare for the upcoming spring selling season.

Northeast STIHL is happy to offer improved margins on spare parts, with Elite dealers earning up to 42% and SRR dealers now earning up to 40%. We are also aligning your bar margins to your whole good purchasing levels, with dealers in the 1-5 buying brackets now making top bar margin. The drop ship oil pricing and buying brackets have also been updated for 2024 and include many reductions in price on most of the popular oils and lubricants. Northeast STIHL is also updating our buying margins

BRANCH DIRECTOR LETTER CONT.

and brackets for drop ship oil orders. These brackets will now consist of “each” pricing, 35 case, 75 case, 175 case and truckload options. Last, for our RZ and RZA dealers we have enhanced the Pro-Fleet and Bid Assist programs, improved margins on many models and will be launching aggressive promotions, including 0% consumer financing through August of 2024. In addition to 0% consumer financing, we will also offer aggressive rebates in 2024. Please make sure to review the current RZ promotions that began in January. Reach out to your Territory Manager now if you are ready to add the line of STIHL RZ and RZA mowers to your dealerships.

On the marketing front, the Marketing Advantage Program (MAP) continues to evolve. 2023 saw an already industry leading program enhanced with the addition of both Buy Online Deliver From Store (BODFS) and Ship To Home from both your Powerchord sites and dealer owned sites. These in addition to the continued growth of our Buy Online Pick Up In Store (BOPIS) feature, continue to put you and STIHL in position to take advantage of the ever-growing ecommerce business. 64% of all STIHL ecommerce transactions are NEW customers to STIHL! 2024 was a record year for STIHL ecommerce purchases and these figures are sure to generate record sales this year and beyond. Please reach out to your Territory Manager to make sure you have activated all the ecommerce solutions being offered ahead of the upcoming spring selling season. We encourage all dealers to take full advantage of the MAP program as it remains a key to our combined success.

As we look forward to the upcoming 2024 selling season, you have our commitment to continue to offer industry leading support, product innovation, marketing, and promotions all in an effort to drive sales of STIHL products through your doors. The Northeast STIHL Team wants to thank you again for another successful year. We look forward to continued growth in 2024 and beyond.

Sincerely,

Jason Mabb
Branch Director

Welcome to Northeast STIHL

Northeast STIHL is responsible for distributing all STIHL products to customers in a large geographic area that includes the states of: Connecticut, Massachusetts, Rhode Island, New Hampshire, Maine, Vermont, New Jersey, New York, and Pennsylvania.

At STIHL, we will strive to be the best possible supplier of quality outdoor power equipment in the industry. Accordingly, it will be our policy to:

- Appoint dealers that are serious about their business relationship with STIHL and their success within this industry.
- Focus on dealers who are looking for quality products which, with the support of a quality sales and service network, provide exceptional value for their money. We continue to believe that the servicing dealer plays a key role in the sales and marketing strategies of premium outdoor power equipment.
- This manual supersedes all previously published policies. Future publications will be made available as necessary and provided at our earliest convenience. STIHL reserves the right to change these policies and procedures at its discretion without notice.

Mission Statement

The mission of STIHL Branches is to be the premier suppliers of handheld outdoor power equipment and accessories in terms of product, service level, training, technical expertise and customer satisfaction while constantly striving to increase market share, sales and profitability. By achieving the above, the STIHL Branches will be the standard by which all distribution operations within the Outdoor Power Equipment Industry are measured.

Our Goals

1. Promote and advertise STIHL products aggressively throughout the territory to ensure maximum brand and product awareness.

2. Aggressively sell the full range of STIHL products and accessories in the territory.

3. Improve the market share of all STIHL products within the territory.

4. Employ, train and supervise the staff of STIHL to ensure an informed, efficient, and professional organization is available to support the STIHL authorized dealers within the territory.

5. Select and appoint servicing dealers within the territory who demonstrate and maintain the necessary qualifications.

6. Assist STIHL dealers in product knowledge, technical service, product safety, sales training, promotions, advertising and any other way necessary to maintain a mutually satisfactory and beneficial relationship between STIHL and its authorized dealers in order to enhance end user satisfaction with STIHL products.

7. Support and enhance the sales and marketing activities of each STIHL authorized dealer within the territory to improve the success of both parties.

8. Stock a sufficient quantity of all STIHL products in order to supply the requirements of the STIHL authorized dealers within the territory.

9. Establish accurate sales performance reports to support authorized STIHL dealers within the territory with sales history, inventory assistance and territory analysis.

Please Note: At its sole discretion, STIHL may, at any time, change the policies and procedures stated above and on the following pages.

Obligations of the STIHL Dealer

1. Maintain a retail establishment in a commercial trade area that is accessible to the public during reasonable business hours.

2. Maintain a reasonable commercial inventory of all STIHL whole goods, saw chain and accessories, as well as spare and replacement parts as per the STIHL 24.7.365 stocking requirements.

3. Have a STIHL Concept Store (SCS) that is up-to-date with STIHL merchandising standards.

4. Provide updated financial information to the STIHL credit department every three years or when requested by STIHL. This information may be requested more often to secure an increase in a dealer's credit limit.

5. Notify STIHL if there is a change in the ownership structure of your dealership. For example, changing from a sole proprietorship to a LLC would require STIHL to be notified. Updated financial information will be required reflecting the new organization of your dealership.

6. All dealers are required to participate in the STIHL Marketing Advantage Program to help promote, advertise and sell STIHL products.

7. All Elite Dealers, new Dealers, and BER+ Dealers are required to have an Edge system as part of their STIHL concept store.
   - All Edge contracts are valid for the duration of three years. The dealer is responsible for each year of Edge fees, even if they choose to remove or cease use of the Edge system before the three years have expired. If a dealership closes before the contract has expired, they will not be responsible for the remaining payments on the contract.
   - System configuration such as system components (i.e. gondola mount, counter stand, floor stand, monitor size) cannot be altered or exchanged for the duration of the 3 year contract unless related to STIHL concept store reset, store reconfiguration, or replacement due to warrantied equipment defects.

8. All New Dealers are required to participate in the STIHL Organic Social MAP+ program. All participating dealers will be enrolled for three (3) years after which dealer can notify their branch to opt out. Additionally, dealers at price level 1 will receive this service at no charge.

9. Be knowledgeable in the use, repair and service of all STIHL products. Maintain at all times adequate facilities, equipment and personnel for the proper repair and service of the products (including warranty service, repairs and normal maintenance). Provide these services to all STIHL customers.

10. Maintain a display unit for demonstration purposes for any STIHL products sold in the box
    All STIHL selling locations must have on-site service with a Silver and/or Gold Technician and STIHL special tools from STIHL Standard Tool Kit which includes the MDG-1.

Multi-Store Group:

- Satellite stores must be able to perform most repairs (major repair exceptions).
- A full service location must be within general trade area of satellite store.
- All locations must have same owner (same company).
- All locations must have a Silver qualified or STIHL Certified technician.
- All locations to have all STIHL special tools from "Gold" tool list including the MDG-1.
- All satellite locations must have the ability to diagnose & repair:
- Pre-delivery set-up and adjustments.
- Starter systems.
- Fuel systems (carb cleaning, carb replacement, adjusting).
- Hoses, grommets, gaskets, tank vents, crankshaft seals.
- Clutch and sprockets.
- Spark arrestor screens.
- Valve adjusting.
- Ignition system (on/off switches, spark plugs, ignition modules).
- Battery products.
- Pressure washer engine & pump service (internal overhaul exception).
- Cutting attachments.
- Filter cleaning & filter replacements.

Obligations of the STIHL Dealer Continued

10. Employ sales staff who have been trained in the operation and routine maintenance of STIHL products, and who are capable of unpacking, setting up and demonstrating the products to the customers. These employees must be capable of explaining the safe and proper operation of these products to the customers, making them aware of all hazards and risks associated with the use of these products.

11. Attend STIHL sales and service clinics / meetings as scheduled including STIHL Universities.

12. Stock and distribute to customers all applicable safety, warranty and operational information, instructions, materials and manuals, including instruction manuals, relating to STIHL products.

13. Comply with STIHL's policies, practices and procedures relating to the placement and processing of purchase orders, the handling and submission of warranty claims and other matters set forth in STIHL's Policies and Procedures Manual, as those policies and procedures may be changed from time to time.

14. Do not alter, change or reconstruct any STIHL product. Do not use or promote them for unauthorized applications.

15. Display appropriate signage with the current white STIHL logo on the STIHL orange background, both inside and outside, identifying your business as an authorized dealer of STIHL products.

16. Keep current any financial accounts with STIHL. Adhere to program due dates or pay as sold, whichever occurs first.

17. STIHL Retailers can offer a "buy online, pick up in-store" on their websites and PowerChord™ sites and a "buy online, deliver from store" option on their websites. Retailer e-commerce websites must adhere to the updated e-commerce guidelines in Appendix 1. **Click here to see the internet sale policy.**

18. Sell only to end users. Do not transfer STIHL products for resale to dealers, companies, organizations or individuals who are not authorized STIHL sales and servicing dealers. Under STIHL's distribution policies, retail dealers are authorized to sell STIHL branded products to end users, but not to act as sub-distributors. In other words, except for occasional trades to resolve field stock problems, it is contrary to STIHL's distribution policy to resell STIHL branded equipment to other dealers rather than to end- users. STIHL will end its supply relationship with any dealer violating this policy.

19. Offer STIHL products for sale only under such trade names, trademarks, designations and logos as are then used by STIHL in connection with such products.

20. Do not use STIHL's name, trade names or trademarks in your corporate name or any other name under which you do business.

21. Authorized STIHL dealerships are not transferable if your dealership is sold. It is the responsibility of the selling dealer to notify STIHL of the intended sale. The new owner may apply for a STIHL dealership through the Territory Manager. That application will be evaluated as a new dealership.

22. Complete product registrations via eService or the STIHL Edge kiosk for all STIHL units sold at point-of-sale. STIHL reserves the right to terminate a dealership for failure to complete product registrations.

BER+ Policies, Exceptions, and Considerations

All Full Line policies, responsibilities, and requirements of the Full Line STIHL Dealer outlined above pertain to BER+ Dealers except where it conflicts with the points below:

- BER+ Dealers will have access to the complete line of STIHL corded electric products, battery products, manual hand tools, and select parts and accessories. A full list of items available to BER+ Dealers is available from your STIHL branch. Look a battery icon beside applicable BER+ whole goods in the Dealer Support Manual.
- All BER+ dealers are required to participate in the STIHL Marketing Advantage Program to help promote, advertise and sell STIHL products.
- The first year a BER+ is a dealer their MAP fee is $600 for the calendar year. This fee will be billed in March. For following years, the yearly MAP contribution is $600 + 1% of the previous year's purchases. Please note, STIHL reserves the right to modify year two if needed.
- Dealer must install and maintain a minimum of 20 feet of the most current and approved STIHL display.
- Dealer must purchase the BER+ special tools kit for performing warranty and repair service.
- Dealer must have two associates complete the updated "Battery/Electric/Hand Tools" iCADEMY® curriculum prior to receiving their new BER+ stocking order or transitioning to the new BER+ program.
- Dealer must have at least one associate attend a one-day, face-to-face Battery and Electric Service Training in the first 12 months after becoming/transitioning to a BER+ Dealer.
- Specific item pricing can be found in the appropriate sections of this Dealer Support Manual; however, the basic discount structure (off of STIHL-SRP) is:

Units	Spare Parts
18%	Up to 42%

STIHL Retail Readiness Program, SRR™

The STIHL Retail Readiness (SRR) Program is a voluntary on-going program requiring certification annually. The criteria to be SRR Certified and the benefits thereof may change from year to year.

This program allows STIHL dealers to become SRR "certified" by meeting or exceeding a series of qualifications which are important to their success.

SRR Dealer Benefits:

The benefits of being an SRR Certified dealer are as follows:

- Enhanced sales success potential.
- Higher dealer margins - qualifies for discount bracket on whole goods.
- PartsPlus Program - Prepaid freight for spare parts and accessories orders of $500 or more. (See Free Freight Policy for exclusions).
- Future benefits may be added or removed at STIHL's discretion.
- NOTE: Non-SRR Certified retailers will have the following benefits:
    - Fixed Margin Units at 20% (18% for Non-SRR)
    - Parts Margin up to 40% (30% for Non-SRR)
    - Bar Margin at 40% (35% for Non-SRR)
    - Eligible to participate in STIHL incentive trips or rewards program

Minimum Dealer Qualifications:

- Maintains a current account at all times.
- STIHL in-store display is the current version of the STIHL Concept Store (C3 or higher), minimum is 48 feet or adequately sized as determined by the STIHL Territory Manager.
- Maintains a minimum stock level of STIHL units, accessories, parts as well as other requirements described in the 24.7.365 Program.
- Current and approved indoor signage installed.
- Participates in all aspects of STIHL e-commerce such as eBiz and eService.
- All key staff members be trained and certified in their respective position in STIHL iCADEMY®.
- A dealer representative must attend all dealer meetings and/or STIHL University meetings annually.
- Use STIHL P.O.P. materials and price tag sets as supplied by STIHL.
- Dealership employs at least one Silver level technician at all times.
- Dealer must participate in Marketing Advantage Program (MAP) advertising. Benefits include listing on all dealer locators (STIHLusa.com and STIHLdealers.com), PowerChord™ website, etc. (refer to current MAP program for details).

Other Program Details:

- Dealers with overdue accounts will be notified by phone call and/or written notice. Failure to promptly correct the situation will result in removal from the program. Dealers may be reconsidered after a one-year period to address deficiencies. Dealers with at least $100,000 in annual net purchases, who have been removed from the program, would be reconsidered after three months. Reconsideration will be allowed only once per calendar year.
- Signage is an important part of this program. Multi-line dealers are required to maintain STIHL signage equal to or greater than that of competitive lines.
- Dealers must be signed up with STIHL eBiz and eService. Dealers are to place orders, register products and submit warranty claims electronically. Payments should be made by STIHL eBiz.
- New dealers will be able to qualify for the program with the approval of the Sales Manager. A new dealer must meet all qualifications as soon as possible and within six months.
- STIHL reserves the right to modify or change the program with or without notice.
- Non-SRR Certified dealers are encouraged to review their dealership and contact their STIHL Territory Manager to see what changes are needed to become SRR Certified.
- Certification will apply for a calendar year and will be automatically renewed on an annual basis unless advised otherwise. The certification anniversary date is January 1 of each year.

STIHL Elite Program

The STIHL ELITE program is designed to incentivize dealers to choose to represent STIHL products exclusively.

STIHL ELITE Dealer Benefits:

- Bump three price brackets for whole goods.
- Up to 42% margin on spare parts
- ELITE icon on dealer locators.
- No restocking charges.
- Ability to split booking orders into two shipments.
- Shop labor rate on warranty repairs after the dealership has a STIHL MasterWrench Service® technician.
- Free STIHL EDGE display and/or touchscreen
- Future benefits may be added or removed at STIHL's discretion.

STIHL ELITE Minimum Dealer Qualifications:

- Meet all other pre-established SRR minimum dealer qualifications and other program details set forth in previous page.
- Annual STIHL purchases above $80,000 per year. (Multi-location dealers see below.) STIHL Zero-Turn Mower purchases do not count towards this dollar requirement amount.
- Must have activated STIHL BOPUS on their PowerChord websites. Multi-location dealerships must activate BOPUS on each location's PowerChord Website.
- Must have STIHL Edge system installed
- 100% exclusive for all gas-powered serialized handheld products and cultivators (all brands).
- 100% exclusive for all battery-powered serialized products $75 or more in retail value.
- 100% exclusive for all wet/dry vacuums $100 or more in retail value.
- STIHL Zero-Turn mowers and RB gas pressure washer competitors do not affect Elite status.
- 70% of all saw chain is STIHL.
- 70% of all guide bars are STIHL.
- 70% of all accessories are STIHL, including hand tools (cannot combine bar and chain with these numbers).
- Current account maintained at all times.
- Dealership employs at least one STIHL MasterWrench Service® certified technician. A dealer has 12 months to replace or train a Certified technician if current Certified technician has left employment.
- Key employees to have passed all iCADEMY® tests relative to their position.
- Annual STIHL purchases above $80,000 per year. (Multi-location dealers see below.) STIHL Zero-Turn Mower purchases do not count towards this dollar requirement amount.
- STIHL Concept Store and exterior signage must be recent versions (recommended 48' of C3 or D1).

Multi-Location ELITE Status Qualification

In an effort to create some parity across our ELITE dealer base, ELITE dealers with multiple locations will have a modified annual purchase requirement. The annual STIHL purchases for each additional location must exceed $40,000 per year per location.

All minimum qualifications must be met before a dealer may become ELITE. If ELITE status is lost, dealer can reapply at the beginning of the next calendar year. Please contact your STIHL Territory Manager if you have any questions about the STIHL Retail Readiness (SRR) or ELITE programs. STIHL reserves the right at its discretion to interpret or modify these programs at any time.

Dealer Pricing Levels, Credit, Payment Terms & Conditions

1. Pricing Policy

It is the intention of the company to offer an uncomplicated Pricing Policy for STIHL dealers. We draw your attention to the following important provisions of our current payment terms and conditions.

- Prices, allowances, promotions, and/or terms are subject to change without notice.
- Price changes are effective on a specific date and all shipments on or after that date will be billed at the revised price.
- Pricing errors brought to STIHL's attention later than 60 days after date of shipment will not be honored and will stand as billed.
- STIHL reserves the right to re-bill an invoice upon discovery of a billing error. We encourage you to bring all suspected billing errors to our attention immediately for your protection.
- No shipments will be made on consignment.
- Price changes will be issued periodically.
- Backorders will be billed at the price in effect at the time of order. However, when we have a limited supply at a lower price, we reserve the right to notify the dealer that we will accept the order only at a higher price.
- All backorders will be billed at standard terms. Backorders for products on program orders will be billed at the remaining terms in effect at the time of shipment.
- Specific item pricing can be found in the appropriate sections of this Dealer Support Manual; however, the basic discount structure (from MSRP) is:

Price Level	Previous Year's Purchases	Units
1	$1,000,000+	up to 26%
2	$500,000 - $999,999	up to 25%
3	$300,000 - $499,999	up to 24%
4	$130,000 - $299,999	up to 22%
5	$80,000 - $129,999	20%
6	$10,000 - $79,999 or Non-SRR	18%

NOTE: Some models have a fixed margin and do not qualify for additional discounts. STIHL Zero-Turn Mowers and accessories are excluded from dealer price level determination. STIHL RZ or RZA purchases do not count toward qualifying purchase amount. Please refer to the STIHL Zero-Turn Mower Policies section for zero-turn pricing structure.

Chain and Bar Bracket Pricing

- Chain discount levels are determined by your prior year's purchases in total chain feet.

Prior Year Chain Footage Purchased	>10,000	7,500 - 9,999	5,000 - 7,499	2,500 - 4,999	0 - 2,499
Chain Bracket	1	2	3	4	5
Chain Margin	56%	53%	50%	47%	44%

Bar Bracket Pricing

- Bar Brackets are determined by your SRR and Elite status.
- Duro and carbide chain have a 40% margin for all Dealers.
- Rock Boss chain has a 25% margin for all Dealers.
- Rock Boss bars are included in normal bar brackets.

Dealer Price Level	Spare Parts
1 - 5	40%
6 or Non-SRR	35%

Spare Parts Basic discount structure (from MSRP)

Price Level	Spare Parts
Elite	**42%**
SRR	**40%**
Non-SRR	**30%**

Some items listed in the spare parts section are shown as NET which signifies your net cost. Most of the items are special tools which are intended for the use of the dealership only. Some items in the spare parts section are also listed in the accessories section. The dealer cost on these items is the dealer cost shown in the accessories section.

We will do our best to notify you of any price change; however, prices and discounts are subject to change without notice.

2. Dealer Credit

We are pleased to be able to offer the privilege of favorable credit terms, as set forth below, to qualified dealers who satisfy and continue to meet the terms and conditions of our credit program. This credit program is offered as a benefit to and privilege for our dealers and is maintained at our discretion.

- To establish credit, a completed and signed credit application, annual profit and loss, and balance sheet and/or personal financial statement will be required. To maintain your established credit limit, annual profit and loss statements and balance sheets are required at least every three years. These financial statements may be requested at any time and will be required for any credit limit increase. A personal financial statement may also be required if deemed necessary.
- Credit is available only to our authorized dealers who satisfactorily meet the credit requirements established by STIHL Incorporated.
- Credit must be approved by STIHL Incorporated. Each dealer's account will be assigned a credit limit based on credit history and purchase requirements.
- If, in the judgment of STIHL Incorporated, a dealer's credit becomes impaired, we may be forced to suspend or alter credit, require payment in advance or take such steps as necessary to secure payment. All reasonable costs incurred in the collecting of past due accounts are payable by the party in default. We reserve the right to terminate the supply relationship with any dealership shown not to be credit worthy.
- As a condition of credit privileges, you must keep your account current to avoid interruptions in service and product deliveries. This policy is in the best interest to you, our dealer, in order to provide the highest quality service.

3. Payment Terms

The terms of payment for STIHL invoices are as follows:

Invoice Value	Due | Split Payments Open Account | True Value	ACE | Do It Best	Wells Fargo Floor Plan
$25 - $3,499	Net 25th	Net 30	Net 30
$3,500 - $5,999	1/2, 1/2	Net 45	60 Days Interest Free Period
$6,000 - $9,999	1/3, 1/3, 1/3	Net 60	90 Days Interest Free Period
$10,000+	1/4, 1/4, 1/4, 1/4	Net 75	120 Days Interest Free Period

"Skip-a-month" terms are available if you place an order of $6,000 or more on or after the 25th of the month. That means that if you place a $6,000+ order on October 25th, the invoice/first payment will not be due until December 25th. Everything on the invoice will have the extended terms. ACE, DIB, True Value, and Wells Fargo are not included in "skip-a-month".

- Invoices will be emailed overnight after shipment.
- End of month statements will be sent within the first week of the month.
- Invoices are due and payable when the product is sold or by the due date, whichever comes first.
- Payment must be received in STIHL's bank account no later than the 25th of the month for all invoices. Invoices not paid by this date are considered past due. Finance charges of 1.5% per month will be billed on the last day of the month for any outstanding amounts. Minimum finance charge is $5.00.
- A $50.00 service charge will be added for any check returned due to insufficient funds. The payment then due must be paid with a certified check or money order. Should any check be returned due to insufficient funds, the dealer's account will be placed on hold until the account is current. Your cooperation in avoiding the situation is appreciated.
- STIHL reserves the right to refuse credit to dealers that do not pay their accounts on a timely basis.
- Dealers with past due accounts that have orders on hold for more than 5 business days and have not made acceptable payment arrangements will have any open orders or backorder canceled. The dealer will need to reorder any items from a canceled transaction when their account is brought back to current status.
- Please refer to the STIHL Zero-Turn Mower Policies for payment terms on all zero-turn models.
- Drop ship oils terms are as follows: 35+ cases = 2 Splits, 75+ cases = 4 splits, 175+ cases = 5 splits, truckload = 6 splits

Payments to STIHL may also be made online with STIHL eBiz. You choose which invoices to pay and when you pay them. Payments are sent electronically from your bank account to ours. You can view invoices and statements on eBiz.

24.7.365 Dealer Commitment Program Guidelines

A dealer's total unit purchase volume from the previous calendar year and a stocking / display level commitment will determine their discount for the year. Some units are "net priced" (not eligible for varying discount levels), while others vary according to your commitment level. The chart below covers units that are eligible for additional discounts. Your Territory Manager will review your purchase level and year-to-date activities from time to time. If you exceed your purchase level, you can be moved up to a higher discount level. If your purchases are below the pace to achieve the required purchase volume, your Territory Manager may adjust your discount level down. The payment terms do not apply to spare parts, collateral or concept store materials. 24.7.365 = 24 hours a day, 7 days a week, 365 days a year.

Purchase Discount Qualification Chart

Level	Purchased 2022	Committed Unit Stocking / Display Level	Maximum % Discount Off MSRP*
1	$1,000,000+	70	26%*
2	$500,000 - $999,999	100	25%*
3	$300,000 - $499,999	100	24%*
4	$130,000 - $299,999	70	22%*
5	$80,000 - $129,999	40	20%
6	$10,000 - $79,999 or Non-SRR	- 0 -	18%

*Not all units are eligible for maximum discount. See 2024 dealer price sheets for specific pricing. Levels 1, 2, 3, 4 and 5 also require SRR™ certification.
*Elite dealers will receive a 3 price level bump based on previous year's purchases.

Committed Stocking / Display Level Requirements, To Be Stocked and Displayed 24.7.365

Selected Stocking / Display Level	Levels 1-3	Level 4	Level 5
Serialized Unit Categories MS, FS, KM, FC, BG, BR, SR, SH, HS, HL, HT, MM, TS, SE, BT, RM Corded Plug-In Electric Units, RMA, AS, AI, AK, AP RB and RE	18 - 20 Categories	16 - 20 Categories	13 - 20 Categories
Trimmer Line Categories 50', 1/2 lb., 1 lb., 1 lb. Spools, 3 lb. Spools, 5 lb. Spools	5 - 6 Categories	4 - 6 Categories	3 - 6 Categories
Oil Categories Mix Oil: 1, 2, 2.5, 5 and Ultra Mix, Bar and Chain Oil - Quarts and Gallons, MotoMix® and STIHL Moto4™	6 - 7 Categories	5 - 7 Categories	3 - 6 Categories
Hand Tool Categories PP, PS, PH, PA, PL, Logging Tools	5 - 6 Categories	4 - 6 Categories	3 - 6 Categories
Accessory Categories Attachments, Carrying Cases, Chain, Chaps, Files, File Kits, Glasses, Gloves, Hearing Protectors, No-Spill® Fuel Containers, Diamond* and Abrasive Wheels	10 Categories	7 - 10 Categories	5 - 10 Categories

*Any dealer who stocks or sells STIHL TS units must prominently display STIHL Diamond wheels.

Program Conditions:

- Dealer agrees to maintain minimum stocking inventory levels as outlined in the STIHL dealer discount structure.
- Must place a qualifying Spring Power Tool Booking order with your Territory Manager.
- Commitment levels will be reviewed with the dealer on an annual basis. New commitment forms can be requested as needed.
- A dealer may request to change his commitment level after review with the Territory Manager.
- All products are payable as sold.
- Failure to maintain the agreed inventory levels for any reason, including credit issues, will result in the dealer being moved back to standard level 6 pricing for the remainder of the calendar year. No reinstatements allowed.

Some units DO NOT qualify for additional discounts. (See price sheets for details)

Orders and Shipping

- Not withstanding any other disposition, a dealer's order will not bind STIHL without the latter's acceptance. It will be at the sole discretion of STIHL whether or not any order is filled. STIHL will not be responsible for any delay in filling an order to a dealer. The dealer agrees that it will have no right to, and shall not claim from, STIHL, any indemnity, damages, or payments for goodwill or other compensation in the event of failure to fill an order.

- Orders may be placed through our eBiz Center (refer to eBiz section), or by using STIHL's toll-free Customer Service "direct lines" as follows:

  Telephone: 1-888-784-8575 Telefax: 1-888-784-8576 eMail: sales.support@stihl.us

- eBiz is an Internet site that allows you to enter orders, check the status of your orders, get copies of invoices and check product pricing and availability. You can also check your account information. It is easy and convenient. To sign up, go to https://us.stihlb2b.com and apply for a login and password. You will receive confirmation and user information from STIHL within a few days.

- Not withstanding the first point previous, STIHL will make every effort to fill all orders on a timely basis. Under normal circumstances, orders called or faxed to Customer Service before 12:00 noon Eastern Time will be shipped that day (provided the account is in good standing and the product is available). Preseason booking orders will be shipped at STIHL's discretion. The cutoff time for orders submitted through eBiz is 1:00 P.M. Eastern Time.

- Apart from specific promotions, there will be no minimum unit requirements on ordering STIHL whole goods, other than those which are packaged in multiples, as noted next to the item in the unit pricing section. These models are only available in order quantities of two. Woodsman and Multipurpose Carrying Cases are multiples of four.

- All orders will be filled and shipped in the order that they are received. Due to the order processing system used by STIHL, it is impossible to facilitate dealer "add-ons." Once an order has been keyed into the system, a dealer must create a new order for any additional items required.

- Local dealers may pick up their orders (provided the account is in good standing and the product is available) at the local STIHL facility by indicating this at the time of ordering. As a normal course of events, orders will be ready within twenty-four (24) hours. If local dealers intend to pick up their order, please indicate this at the time of ordering. Local dealers must call their STIHL Branch to check on the status of their order before arriving at STIHL. Dealers who arrive at STIHL without giving this lead time should be prepared to return at the appropriate time as there is no dealer waiting area and will be turned away without their order.

- STIHL will accept emergency parts orders until 3:00 P.M. Eastern Time for same-day shipment. These orders should be for emergency, "unit down" situations rather than for everyday stocking orders. To that end, a maximum of six (6) line items (spare parts only) per order will be accepted, and the $25.00 minimum order will still apply. There will be a $25.00 processing fee assessed to each emergency order.

- Backordered items will be invoiced at the price effective at time of order.

- STIHL is required by law to collect state sales tax in conformity with the rules and regulations of states in our territory. Our price lists do not reflect state sales taxes where applicable. However, if dealers are purchasing goods to be resold, and you have furnished STIHL with a complete and valid resale certificate, then state tax is not charged. Generally speaking, items used in business are taxable.

- Please refer to the STIHL Zero-Turn Mower Policies for zero-turn ordering and shipping information.

Urgent Emergency Part Service

If you absolutely need a part as soon as possible that STIHL and the STIHL distribution network does not have in stock, that part can be shipped directly from the Virginia Beach parts warehouse to your dealership. To initiate an urgent emergency part service shipment please contact Customer Service at (888) 784-8575. The order must be placed by 12 noon for same day shipping.

Service charge per line item: $10.00.

Fixed freight charge: Ground - $10; Next Day Air $40.

Freight Policy

Minimum Order

- We require a minimum order of $25.00, invoice value.
- Some fast moving spare parts and accessories have minimum order quantities greater than one.
- On orders less than $25.00, we reserve the right to add the dollar amount difference to the orders to ensure the minimum order value is attained.

Freight Policy

- We will charge dealers for freight as incurred on all orders unless:
- The order is placed on STIHL eBiz or EDN with a minimum order value of at least $3,500.
- The order is placed by fax or phone with a minimum order value of at least $4,500.
- The order is made up entirely of select battery and corded electric products, related accessories and select spare parts, with a minimum order value of at least $1,000.
- PartsPlus Program (SRR and ELITE dealers only) - Prepaid freight for spare parts and accessories orders of $500 or more (excludes wholegoods, AR Backpack batteries, AP 500 S, fluids, fuel cans, carrying cases, abrasive wheels, STIHL Cutquik® carts and metal storage boxes).
- Dealers are limited to one free freight order per day.
- STIHL Zero-Turn Mowers are excluded from STIHL's standard heldheld equipment freight policies. Please refer to the STIHL Zero-Turn Mower Policies for complete details.

Free Freight

- At our discretion we will determine the most efficient way to ship free freight orders.
- Any backorder that was part of a $3,500 eBiz order, a $4,500 order or a PartsPlus (SRR & Elite dealers only) $500 order will be shipped freight free. Back-orders will be shipped freight prepaid as long as it is included in an original qualifying prepaid freight order.

Free Freight Overview Chart

	Minimum Order Amount	TS Carts	Abrasive Wheels	All Carrying Cases	Gas Cans	Oil/ liquid/ aerosol	Wholegoods	AR Backpack Batteries & AP 500 S	Accessories	Parts
eBiz EDI Orders	$500	No	No	No	No	No	No	No	Parts and accessories not excluded qualify for free freight.	
	$1,000	Battery and corded electric products, related accessories and select spare parts								
	$3,500	All items can be combined for FREE Freight.								
Customer Service Orders Fax & Phone	$4,500	All items can be combined for FREE Freight.								

Only clothing shipped from a STIHL Branch warehouse qualifies as an accessory. This excludes orders placed through STIHL Outfitters.

Drop Ship orders CANNOT be combined with other orders that ship from the STIHL warehouse to meet the minimum dollar requirements for free freight.
NOTE: $500 free freight program is available only to SRR qualified dealers.

Count and Damage Inspection

It is the dealer's responsibility to verify the count on every shipment received. Prior to accepting the shipment, please inspect each carton for evidence of rough handling and damage. You should not sign for any shipment unless you have confirmed the carton count. If carton damage is found, the carton should be opened and inspected in the presence of the delivery driver. Any damage must be noted on the carrier's bill of lading. Shortages and damages not noted on the carrier's bill of lading are the responsibility of the dealer. Claims which are refused because the inspection procedures were not followed will be charged back to the dealer. All damages or shortages should be reported to Customer Service within 10 business days of receipt of shipment at 888-784-8575 or email: order.inquiries@stihl.us.

- Any Drop Ship Oil order overage or shortage must be reported to Customer Service within 3 days.
- All shipments from STIHL are F.O.B. Origin. This means that title to product transfers to the dealer at the time the product leaves the STIHL shipping dock.

Freight Policy Cont.

Insurance

Insurance is covered within our shipping charges, therefore, lost or damaged shipments will be replaced provided that proper documentation is received.

FedEx Shipments

- Prior to signing for the shipment be sure to count, inspect and verify with the driver that all cartons are free of obvious damage or shortage.
- For power units, be sure to lift cartons to determine if any tampering has occurred in shipping (i.e., power unit missing and carton resealed).
- All other boxes leaving STIHL are sealed with STIHL logo tape.
- If damage is found or suspected, open the carton and inspect the contents while the carrier is present.
- When signing, note any damage or irregularities to the boxes, strapping and / or tape to the driver and be sure to indicate that you will be filing a claim. Hold the carton and its contents at your location for inspection.
- Claims for missing or damaged items should be made to Customer Service, telephone (888) 784-8575 or email order.inquiries@stihl.us, within 10 days of shipment, or claims will not be considered.

Truck Freight

- Prior to signing for the shipment, count and inspect freight. All palletized freight leaving STIHL is shrink-wrapped, and a notice indicating the number of boxes is placed on the pallet. This number of boxes should agree with the total number of cartons on the delivery receipt. Be sure to count the cartons, not pallets!
- If the shrink-wrap is broken, count the cartons carefully.
- All discrepancies for missing and damaged items must be clearly noted on the carrier's delivery receipt at the time of delivery.
- The driver must sign your copy of the delivery receipt. Failure to do so voids STIHL's ability to file a claim with the designated carrier.
- When damage is found, an immediate inspection by the carrier's claims department must be arranged. To arrange for this inspection, contact STIHL's Customer Service department. (888) 784-8575.
- Claims for missing or damaged items should be made to Customer Service, telephone (888) 784-8575 or email order.inquiries@stihl.us, within 5 days of shipment, or claims will not be considered. In turn, STIHL will file the claim on your behalf against the carrier.

IMPORTANT - Shortages and visible damage not noted at the time of receipt on the carrier's bill of lading become the sole responsibility of the dealer. Any carrier claims that are refused because the above noted procedure was not followed will be charged back to the dealer.

Returned Goods

Returned goods shipments will be accepted only if the following conditions are met:

- A "Returned Goods Authorization" (RGA) number must be obtained from the Customer Service Department. The Customer Service Department can be reached at order.inquiries@stihl.us or (888) 784.8575 (option 1). The "Returned Goods Authorization" number must be written on the outside of the carton, and the RGA form must accompany the return. Shipments received without prior authorization will be returned to the sender at their expense.
- Requests for returning goods made within 30 days of invoice date will not be charged a restocking fee.
- Requests for returning goods made after 30 days of invoice date will be charged a 15% restocking fee. Elite dealers will not be charged a restocking fee.
- Parts being returned must be in the current STIHL parts price list. No superseded or special order parts may be returned.
- Parts must be new, unused, in original containers and in saleable condition. No dealer markings or price stickers. Parts may not have been installed.
- The dealer is responsible for freight charges on all returns unless the return is the result of a STIHL shipping error, in which case a FedEx Call Tag will be issued.
- All powerheads must be in the original carton and not previously serviced.
- All STIHL Zero-Turn mowers must be in WMP crate and fuel drained. Picture of hour meter is needed for authorization.
- Credit will be issued to the dealer within 30 days of receiving the RGA at our warehouse.
- Authorization will be canceled if items are not received at the STIHL warehouse within 30 days of issue.
- Lithium Ion Battery returns must be approved by STIHL and, if approved, we will provide a return kit and issue a RGA. All backpack style batteries, regardless of condition, cannot be returned via FedEx and must be picked up by your Territory Manager. Damaged batteries cannot be returned.

Note: Except for AR batteries, please do not hold items for your Territory Manager to pick up as they do not visit STIHL facilities on a regular basis. This may result in cancellation of authorization.

Annual Spare Parts Return

1. Dealers are entitled to one spare parts return per year. The value of this return is based upon your spare parts purchase in the prior calendar year. Dealers my return up to 10% of their dollar volume parts purchases, to a maximum of $3,000 (or up to 20% to $6,000 for Elite dealers). your STIHL branch can advise you of the value of parts you are eligible to return. After receiving your request, STIHL will notify the dealer when to ship the approved merchandise to your STIHL branch.

2. Credit will be based on the current STIHL spare parts price list. A restocking fee of 15% will be applied. The dealer will be responsible for freight charges associated with this return.

3. Spare parts classified as "fast-moving" in our inventory system may be returned. It is at the discretion of STIHL to review and reject these items for return.

4. For all STIHL Zero-Turn Mower spare parts, we will only accept parts with the STIHL assigned 11-digit part number that are stocked at the branch.

5. Returned parts must be clean, new and in sale-able condition as is determined by STIHL. Parts must be in original factory packaging, where applicable. No parts with dealer marking or price stickers will be accepted.

6. Returned parts that cannot be resold as new will be returned to the dealer. Return freight will be billed to the dealer.

7. Account must be current and in good standing unless otherwise approved.

8. The Annual Spare Parts Return Program will NOT be allowed to reduce service levels on current orders.
   The following items are NOT returnable regardless of return code;
   - Any part that has been installed.
   - Any part with a retail value of less than $10.00.
   - Any sealed package which has been opened.
   - Gaskets, electrical and/or rubber parts.
   - Any part that is or will soon be superseded based on current technical information.
   - Any accessory including bars, chain, trimmer heads, trimmer line, gloves, protective glasses, protective apparel, lithium-ion batteries and chargers, blister packed items, etc.

9. Requests must be clearly legible. Requests can be mailed, faxed or emailed to STIHL. Please direct all Annual Spare Parts Return fax requests to your specific local STIHL branch.

10. Upon approval, STIHL will enter an RGA for the approved parts. STIHL will then contact the dealer with the return information. All returns will be processed in November and December.

11. The form at the end of this section may be used to submit your return request.

Note: STIHL reserves the sole right to make the decision as to which parts can be returned. No spare parts returns will be accepted unless this procedure is followed.

Bid Award Assistance Program (BAA)

Purpose

The STIHL Bid Award Assistance (BAA) program is designed to help the dealer recover a portion of the discount offered to an organization in order to win a bid award for STIHL product.

Dealers may bid any discount he or she believes necessary to win a bid. STIHL will reimburse the dealer up to 50% of the discount given, up to a maximum of 10% of the suggested retail price (SRP) for any discounts between 10% and 20% off the STIHL SRP or STIHL promotional SRP that is in effect at the time of the sale to the agency. For example, if the dealer gives a 15% discount to an eligible government agency the dealer will receive a 7.5% credit from STIHL. Discounts below 10% do not qualify for reimbursement.

For example
- For a discount of 5%, the dealer does not receive a credit
- For a discount of 9%, the dealer does not receive a credit
- For a discount of 10%, the dealer receives a 5% credit
- For a discount of 12%, the dealer receives a 6% credit
- For a discount of 20%, the dealer receives a 10% credit
- For a discount of 25%, the dealer receives a 10% credit

Qualifying Entities
- Tax exempt organizations under the U.S. Internal Revenue Code section 501(c)(3). Cities, counties, states and federal government agencies, including the military.
- Third Party procurement companies which have a written contract with a specific government agency. This does not include sales stock product for future sales.

Some examples of the type of qualifying entities are listed below.

Government/Tax Supported Entities
- Department of Defense (Army, Navy, Air Force, Marines)
- Department of Agriculture (US Forest Service)
- Department of the Interior (National Parks, National Monuments, Wildlife Refuges, Indian Reservations)
- Department of Transportation (FAA)
- Department of Homeland Security (Coast Guard)
- Department of Veterans Affairs (Veteran Hospitals, National Cemeteries)
- National Aeronautics and Space Administration (NASA)
- United States Postal Service (USPS)
- Amtrak

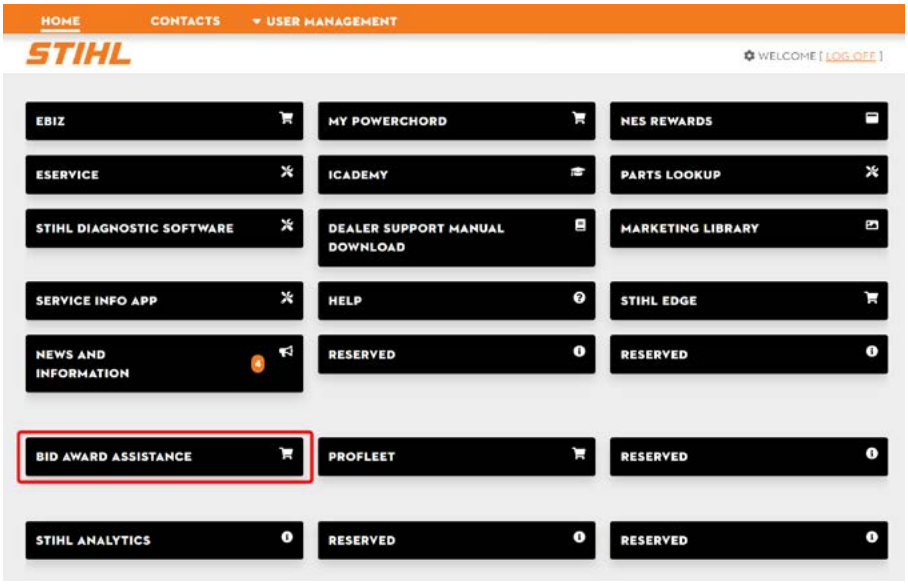
State, County and Municipal Entities
- State Universities and Colleges, School Districts
- Forestry Departments
- Courthouses, Prison Programs (excluding privately owned prison companies such as CoreCivic or GEO Group as examples)
- Parks and Recreation Departments
- Roads and Highways Departments
- Electrical Cooperatives, Utility Cooperatives
- Police Departments
- Fire Departments
- Airport Authorities
- National Guard

Tax Exempt Entities (only those who qualify as a 501(c)(3)
- Churches, Charities, Foundations
- Boy Scouts and Girl Scouts
- Non-Profit Community Hospitals (excluding for-profit hospital corporations)

Requirements

- Other than the third party procurement exception above, BAA product may not be resold, raffled, or otherwise transferred.
- All STIHL products (including those purchased through a third party procurement agent) must be assembled and serviced, and must be demonstrated and delivered to the end user organization in person by the Dealer. This includes the safety information presentation already done for STIHL products sold to each retail customer. All units must be registered to the end user organization.
- The STIHL BAA program is applicable to STIHL units, attachments and accessories (including oil by the case and protective apparel). Chain saws in kit configurations sold by the STIHL branch or distributor are applicable but no credit can be issued on customized chain saw kit configurations. STIHL replacement parts and STIHL OUTFITTERS™ merchandise are not included in the program.
- Minimum qualifying purchase before BAA discount is $100.00.
- Products donated to any organization are not eligible for BAA reimbursement.
- Dealer electronically submits the documentation via eBAA filing system including:
    - Dealer sales invoice with the official name of agency or organization including mailing address, phone number, contact name and email address. The invoice must show the model and serial number(s), along with the sale price and discount.
    - The tax ID number registered with the IRS. For more information go to: https://apps.irs.gov/app/eos/
    - Federal tax exemption verification for 501(c)(3) organizations is required through an IRS affirmation letter.
    - A copy of the PO from the agency or proof of payment (e.g. copy of the check or credit card receipt).
    - If selling to a third party procurement agency, a copy of the procurement agreement must be attached, including an order from the government agency to the third party procurement company for the product on the invoice.
- Dealer must retain a copy of the documentation for two years.
- Claims must be submitted within 60 days of the sale.
- STIHL will audit claims and may request additional information.
- If the part number for a KM or MM attachment includes “US” in the Dealer Support Manual, the “US” must be included in the claim.
- Oil must be sold in case quantities and files must be sold in box quantities.
- Please refer to the STIHL Zero-Turn Mower Policies for full details on zero-turn Bid Award Assistance.

All Claims must be submitted using the BAA website found on Dealer’s Single Sign On page.



For questions regarding BAA:
Training documents are available on ebiz
email: bid.assistance@stihl.us
or Call: 1-888-784-8575

Forestry Assistance

Students in forestry programs offered at various colleges and universities will become the foresters and heads of parks, tree crews and other large purchasing powers in the industry. In order to get the future buyers of our products using our equipment before they get into the work force, STIHL is offering a Student Assistance Program.

The student must be enrolled in a college specializing in forestry and must be majoring in that field. Student will be able to purchase one unit and / or one personal protective purchase per year. Personal protective purchase may contain all or part of the following: chaps, pants, vest, helmet, hearing protectors, protective glasses, gloves, and boots. Personal protective purchase must be done in one purchase, no splits.

To purchase a unit, the student must obtain a coupon from STIHL by calling their local STIHL branch. The student would then take the coupon to the dealer of his choice and receive a 10% discount off MSRP. The dealer must retain the coupon and obtain a copy of the student's school identification card. These items, along with a copy of the sales invoice, should be forwarded to STIHL who will credit the dealer's account for 10% of MSRP.

STIHL may consent to the omission of these requirements in whole or in part at any time, or refuse to credit the dealer's account in the event it determines there is any breach of the spirit and intent of the Student Assistance Program.

STIHL Pro Fleet Program

Program Purpose
The STIHL Pro Fleet Program is designed to provide large professional users a volume discount on major purchases of landscaping power tools and related accessories.

Program Overview
Authorized STIHL dealers will be eligible for a Pro Fleet Program reimbursement up to 10% of the regional STIHL Branch SRP at date of sale (prices may vary according to seasonal promotions) when the program requirements are met.

Program Eligibility
This program is only available to companies who are using the product professionally. Organizations must have a federal tax id, not be a government agency, member of STIHL Incorporated's National Account Program, or considered non-profit under the conditions of 501c(3). If you have any questions regarding a customer's eligibility, please call your Territory Manager.

Qualifying Order
Once eligibility is established a Pro Fleet customer must make a **Tier 1** or **Tier 2** qualifying purchase. **Tier 1** includes a qualifying purchase of **$2,500 -$4,999** and a **Tier 2** qualifying purchase of **$5,000 or more** of select products (including STIHL branded accessories) on one invoice. Serialized product (including AP and AR batteries) must make up a minimum of 50% of the order to be eligible.

The dealer may offer the Pro Fleet discount associated with the qualifying tier and will be reimbursed by STIHL accordingly. See chart below.

	Qualifying Order	Pro Fleet Discount *	Dealer Reimbursement
Tier 1	$2500-$4999	10%	5%
Tier 2	$5000+	20%	10%

*A Pro Fleet discount less than the tier minimum does not qualify for reimbursement. Any additional discount in excess of the tier minimum will not be reimbursed by STIHL, and will be absorbed by the Dealer.

Eligible Products on Qualifying Order
- All serialized units except FS 38/40/50, BG 50, RB 200, AS, AI and AK battery units, and iMOW® (see iMOW® Pro Fleet Program)
- AP and AR batteries qualify as serialized units
- STIHL branded accessories (must not exceed 50% of the order)
- Only one MS/MSA, one TS/TSA and one GS unit may be purchased through the Pro Fleet Program on a qualifying order. These units do not count toward the qualifying dollar amount. These are "add-on" units only.

Qualifying Reorder
The Pro Fleet customer's original qualifying purchase makes that company eligible for reorders through the Pro Fleet Program at their qualifying tier level throughout the following (rolling) twelve months for all qualifying serialized products.

Eligible Products on Reorders
- Serialized units only (no accessories on reorders)
- MS/MSA, TS/TSA, Zero-Turn Mowers and GS units are not eligible on reorders.

Submission requirements
All appropriate forms must be submitted to STIHL within 60 days of the sale.
- Copy of the invoice to the customer.
- Register all serialized product prior to submission.
- Complete Pro Fleet Program Reimbursement by going to SSO, clicking the ProFleet button, then creating a new claim.

STIHL Pro Fleet Program Cont.

Additional Program Details:

- Discounts / Credit refunds are based upon STIHL Branch SRP at date of sale to the commercial landscaper (prices may vary according to seasonal promotions).
- Once a customer qualifies, they may purchase additional qualifying serialized products from any participating STIHL Dealer through the Pro Fleet Program. Discounts may vary.
- The Pro Fleet Program is only available to Dealers who are in good credit standing with STIHL.
- No additional discounts or programs will apply.
- All units must be properly set up, registered and serviced. The Dealer must review appropriate operational procedures and provide a product manual with each product.
- STIHL reserves the right to modify and/or change this program with or without notice.

Limited Warranty Policy

Product

All dealers must understand and be fully cognizant of the provisions of the STIHL Inc. Limited Warranty Policy. If any doubt exists, reference should be made to the STIHL Inc. Limited Warranty Policies and Procedures Manual available on iCADEMY® under Service Support.

General Policy for Warranty

Please see Warranty Policies & Procedures manual on iCADEMY® under Service Support.

Warranty Claims Procedure

We administer the STIHL Limited Warranty on products in accordance with the printed Limited Warranty Policy (copy available upon request).

- All claims for warranty are to be processed on eService (accessable through STIHL Single Sign On: http://dealers.STIHLusa.com). Please ensure all information relative to the claim is entered.
- All parts should be tagged and retained by the dealer for 90 days. Do not ship parts to a STIHL branch unless requested. The total amount of the claim will be charged back if not returned to STIHL Inc. or STIHL when requested.
- All claims must be submitted within 30 days of failure date.
- Upon approval, the dealer's account will be credited with the full dealer cost of the replacement parts involved in the repair and a credit for the time taken to affect the repair in accordance with STIHL's repair time tables.
- Standard Warranty labor reimbursement will be at the rate of $55/hour. State laws and Gold Technician status may affect this.
- Please refer to the STIHL Zero-Turn Mower Policies for full details on zero-turn warranty policies and procedures.

eService Product Registration and Warranty Claim Submission

- For Product Registrations: Enter the eService website, click on Product Registrations and select 'New Registration.' Fill out all required fields.
- For Warranty claim submission, make sure the product was previously registered and have the serial number at hand. Then enter the eService website, click on Warranty claims and select 'File A New Claim.' Fill out all required fields.

For complete instructions go to iCADEMY® and watch these two video: eService - Filing Product Registrations and eService - Submitting Warranty Claim

Seven (7) Day Satisfaction Guarantee

STIHL offers a Seven (7) Day Customer Satisfaction Guarantee on select STIHL machine. The STIHL Satisfaction Guarantee Program allows a customer to return any STIHL serial-numbered machine (except TS and TSA cut-off machines, GS concrete cutters, pressure washers, STIHL Zero-Turn Mowers, and robotic lawnmower) to the selling STIHL dealer for a refund (including taxes) or an exchange within seven consecutive days of the original purchase date. The machine must be returned to the original selling dealer. If a machine is returned, the dealer's options are as follows:

Procedure for Satisfaction Guarantee Returns

If a customer returns to a participating dealer for reimbursement or exchange, and the machine qualifies under the terms of the STIHL Satisfaction Guarantee Program, the dealer should use the following guidelines to file a Satisfaction Guarantee claim:

- Complete the online claim form found on eService using the correct serial number, model number and date sold, and include an explanation for why the customer is returning the unit.
- Include a copy of the original sales invoice and the return invoice showing customer information, model number and serial number of the unit involved.
- Include a copy of the original product registration.
- Once the above documentation has been received, STIHL will issue a credit to the dealer for 10% of the dealer's cost of the returned unit. The product registration from the original sale will be voided. The machine can then be sold to another customer as a demonstrator product. The product will have the same warranty coverage as a new machine, starting from the date the product is resold.
- With **prior approval**, the unit may be returned to STIHL (freight prepaid) for a full credit.
- Click here to see how to file a 7-Day Satisfaction Guarantee using eService.

STIHL Satisfaction Guarantee - Items Not Covered

- STIHL gasoline and battery powered cut-off machines (TS/TSA), the GS concrete cutters, RB pressure washers, RMI robotic lawnmowers, and STIHL Zero-Turn Mowers do not qualify for the program.
- Machines must be returned within seven (7) consecutive days from the date the customer originally purchased the product. Machines returned after this time period do not qualify for reimbursement or exchange under the program.
- The Satisfaction Guarantee applies to select STIHL serial-numbered machines only. It does not apply to any other STIHL product such as accessories, repair parts, cutting attachments, expendable and/or supplementary items, etc.
- The STIHL Satisfaction Guarantee Program does not apply to machines that have been damaged due to improper adjustment, abuse, misuse, neglect or failure to operate and maintain the machine in accordance with the instructions supplied in the instruction manual.
- Machines that have been stolen or damaged due to abuse or neglect or damaged by fire, water, wind or other acts of nature do not qualify for exchange or reimbursement.
- If the machine is returned due to warranty failure, it is to be repaired per the normal guidelines of the STIHL Limited Warranty Policy and returned to the customer. Dealers and customers should refer to the STIHL Limited Warranty statement for these guidelines. The customer is responsible for any repairs for failures that do not qualify for warranty coverage.
- Cutting attachments, deflectors, shrouds, handles, etc. should be expected to have normal wear, discoloration and debris buildup as with any used or demonstration machine. Normal wear and tear does not qualify for reimbursement under the STIHL Limited Warranty statement.

STIHL reserves the right to modify or cancel the Satisfaction Guarantee Program at any time.

Repair Assistance

STIHL products are sold exclusively through authorized dealers and retailers. All STIHL full line dealers must provide a service department, possess certain necessary special tools and attend periodic service training seminars. Dealers must be willing to supply prompt and efficient maintenance, warranty and repair service for all users of STIHL products. STIHL's Technical Service department will assist any dealer with any service problem, but cannot serve as a dealer's service center.

Calling your STIHL Branch can solve the majority of these problems. As a last resort, and if the dealer has made a good faith effort to resolve the problem using the recommended procedures and diagnostic tools, it may be necessary to send a unit to STIHL. Do not send failed parts to STIHL unless a Technical Specialist asks you to do so. Dealers are obligated to keep failed parts for ninety (90) days after the date that the warranty claim is submitted. If failed parts are not available when requested, the warranty claim, parts and labor, will be billed back to the dealer.

If requested to send a unit to STIHL, please follow this procedure:

- Request a Return Authorization Number from STIHL's Technical Service Manager before shipping any unit to a STIHL branch for repair. Unauthorized shipments will be returned to the dealer at the dealer's expense.
- All units must be shipped freight prepaid to your local STIHL branch, see branch policies for address and phone number. Return freight will be the responsibility of the dealer, whether or not the unit is deemed to be under warranty.
- Submit with the unit: the customer's name, address, phone number, date of purchase and serial number of the unit.
- Describe the problem in detail and include completed copy of the "STIHL Engine Check Form".
- All fuel and oil must be drained from unit prior to shipping. Due to government regulations, units must be shipped via ground service only. Units that have had fuel in them will be classified as "dangerous goods." Check with your shipper.
- If the unit or the failure is not covered by warranty, the dealer will be charged our current labor rate. Any parts installed will be invoiced at current suggested retail prices.
- Any unit sent to STIHL will be repaired as needed. All worn, damaged, or neglected parts will be replaced. All safety equipment (i.e. chain brakes, chain catch bolts, hand guards, etc.) will be present and operable before leaving our premises. Any aftermarket parts or accessories will be replaced with original STIHL parts.
- If the dealer requests an estimate and subsequently declines to have the unit(s) repaired, a one hour labor charge will be assessed and billed to the dealer.
- When all repairs have been made, or a decision has been made not to repair the unit, it will be shipped back to the dealer along with an invoice covering all repair expenses.

New Product Registration

STIHL requires that all new serial numbered products be properly registered at the time of sale.

Registrations may be filed:

- On STIHL eService. Please go to eService via Single Sign On (http://dealers.STIHLusa.com).
- Through the STIHL EDGE touchscreen.
- Electronically through your business system using the STIHL Dealer Web Service (DWS) available on C-Systems, Ideal business systems and Charter.

STIHL reserves the right to terminate its supply relationship with dealers who do not complete new product registration as required.

Product Instruction Manuals

STIHL will no longer carry Product Instruction Manuals, Paper Technical Bulletins or Paper Service Manuals in the warehouse. Instruction Manuals will now be available for you from Virginia Beach Customer Service.

Simply call STIHL Customer Service and select Technical Services, provide the model number and they will send you a copy of the Instruction Manual free of charge. Another way for a customer to get a copy is to go to STIHLUSA.com, click on manuals, then click on Product Instruction Manuals to download a copy.

Technical Bulletins and Service Manuals are available electronically via eBiz, PartSmart and www.stihlicademy.com. Please call your Territory Manager if you have any questions.

STIHL Gasoline Zero-Turn Mower Dealer Guidelines

As an Independent STIHL dealer, you may have the opportunity to become a STIHL zero-turn mower dealer. The criteria required to be a STIHL zero-turn mower dealer, and the benefits thereof, may change from year to year. Meeting the following guidelines requires an on-going commitment, and participating dealer's compliance will be reviewed annually.

Limited Warranty - All backed by our warranty

- We stand behind the quality, durability, and dependability of all our zero-turn mowers, which is why we back up each sale with a 3-year limited warranty.
    - **Consumer Models:** 3 years or 500 hours (whichever comes first)
    - **Professional Models:** 3 years or 1500 hours (whichever comes first) on Kawasaki. 3 years, unlimited hours on Briggs & Stratton commercial engines on professional models.
- **"**Bumper-to-Bumper" Limited Warranty included on Briggs & Stratton and Vanguard® engines and Hydro-Gear® transaxles.

Exceptions:

- Kawasaki Engines (Warranty, Training and Support provided by Kawasaki)
- Starting Batteries (30 days)

Dealership must be part of the STIHL Retail Readiness (SRR) program

Training & Service

- Must be a Briggs & Stratton Engine and Kawasaki Dealer in good standing, including all required training so warranty claims can be completed as follows:
    1. STIHL zero-turn with Kawasaki Engine, bumper to bumper warranty is processed by STIHL through eService, with the exception of the Kawasaki Engine. Kawasaki engine warranty claims are handled exclusively by Kawasaki.
    2. STIHL zero-turn with Briggs & Stratton Engine, bumper to bumper warranty is processed by STIHL through eService.
- STIHL zero-turn mower Special Tool Kit purchased or verification of comparable tools.
- STIHL zero-turn modules completed on STIHL iCADEMY®.
- Repair of STIHL zero-turn mowers will be performed by a dealership employee.
- Dealer will participate in on-going STIHL zero-turn training programs, as they are made available by STIHL.
- In the event that a dealership no longer has an STIHL zero-turn trained employee, dealer agrees to send employee(s) to the necessary training offered by STIHL, Briggs & Stratton or Kawasaki training outlined above within two months or to the next available training opportunity.
- Only genuine STIHL, Briggs & Stratton, Kawasaki, and Hydro-Gear replacement parts and materials may be installed by the dealer or dealer employee.

Display and Merchandising

- Have an operating STIHL zero-turn unit on premise.

Dealer Credit and Wells Fargo Flooring

- Dealers who are in good standing and have been extended credit through STIHL Inc. have the option to use this credit for STIHL zero-turn units, can use their direct bill account or will be required to use Wells Fargo Flooring.
- Dealers who do not have credit through STIHL Inc. or a direct bill account will be required to use Wells Fargo Flooring.
- For details see the Dealer Credit section in this DSM.

MAP Program

- STIHL zero-turn Marketing Advantage Program (MAP) is a separate marketing program from the All In Marketing Advantage Program. Since these are separate programs, caps are associated for each program.
- Dealers are charged 1.5% on all STIHL zero-turn and battery zero-turn mower shipments with a maximum yearly cap of $2,500 per location.

Leased Crates

- Crates must be returned to WMP Crates. A minimum of six crates are required for pickup. Crates are serialized. To obtain credentials and access to request a pickup contact WMP Crates at (844)-880-9672 or email customerservice@wmpcrates.com. Dealers are responsible for the cost of the crate if not returned.

Pricing

• One price level for all STIHL zero-turn dealers with the following price brackets determined by model series:

PRICING

STIHL Battery Zero-Turn Mower Dealer Guidelines

As an Independent STIHL dealer, you may have the opportunity to become a STIHL battery zero-turn mower dealer. The criteria required to be a STIHL battery zero-turn mower dealer, and the benefits thereof, may change from year to year. Meeting the following guidelines requires an on-going commitment, and participating dealer's compliance will be reviewed annually.

Warranty - 5 year limited Warranty
- The first 2 years will be an unlimited hour warranty.
- After the first 2 years you will have an additional 3 years or 1500 hours.
- Example: A unit having 2,100 hours of run time after 16 months will still be covered by warranty.
- Like handheld products, warranty processes will go 100% through STIHL Inc.

Dealership must be part of the STIHL Retail Readiness (SRR) program

Training & Service
- STIHL battery zero-turn modules completed on STIHL iCADEMY® by at least one dealership employee at any given time.
- Repair of STIHL zero-turn mowers will be performed by a dealership employee.

Dealer Credit and Wells Fargo Flooring
- Dealers who are in good standing and have been extended credit through STIHL Inc. have the option to use this credit for STIHL battery zero-turn units. (For details see the Dealer Credit section in this DSM)
    - Dealers can use their direct bill account or will be required to use Wells Fargo Flooring.
- Dealers who do not have credit through STIHL Inc. or a direct bill account will be required to use Wells Fargo Flooring.

Leased Crates
- Crates must be returned to WMP Crates. A minimum of six crates are required for pickup. Crates are serialized. To obtain credentials and access to request a pickup, contact WMP Crates at (844)-880-9672 or email customerservice@wmpcrates.com. Dealers are responsible for the cost of the crate if not returned.

Pricing
- One price level for all STIHL battery zero-turn dealers with the following price brackets determined by model series:

PRICING	
Model	Margin %
STIHL RZA 700 Series	20%

Price Terms Transfering Units
- Dealer to Dealer Transfer for a sold unit – Open Account dealers receive N30 terms.
- Dealer to Dealer Transfer for overstock – Wells Fargo 365 Days or Open Account 4 split

Professional Branch Demo Program (STIHL RZA 700)
- One STIHL RZA demonstration unit per dealer location annually
- $375 maximum credit at 10 hours given to dealer at point of sale
- Estimated Effective Date: March 1, 2024

Freight and Terms

- For orders of 6+ units allow up to two weeks lead time
- For orders of 1-5 units allow normal freight transit time with order cut off times outline in the orders and shipping sections of this DSM.
- RZ and RZA volume discount program: mix and match any 18 RZ and/or RZA mowers to recieve a 3% dealer discount, OR order 16 RZA units to recieve a 3% dealer discount.

QUANTITY (MIX & MATCH)	FREIGHT (PER MACHINE)	TERMS		
Units		Wells Fargo (*)	ACE/DIB	Open Account/Split Payments
1-2	FREE freight	6 months	Net 45	1/2, 1/2
3-5	FREE freight	12 months	Net 60	1/3, 1/3, 1/3
6+	FREE freight	12 months	Net 75	1/4, 1/4, 1/4, 1/4

No cash or early payment discounts.

STIHL Zero Turn Mowers - Shipping Damage Policy & Procedure

Introduction

Since the launch of the RZ-Zero Turn platform, we have seen an increase in "Concealed Damage" warranty claims.

Concealed Damage claims are reserved for products that arrive damaged, but the damage itself is hidden by the product's packaging or shipping materials and there is no visible damage to the product's packaging, shipping carton, pallet, crate, plastic coverings, or any other form of shipping materials. Products that arrive with visible damage to their shipping materials and also show signs of damage themselves should be handled by following the policies and procedures outlined in this document.

The Purpose of this page is to outline the proper procedure for reporting shipping damage and being compensated for the damaged units.

When a STIHL RZ unit arrives at your dealership, you must check it for damage before the truck driver leaves.

If you have received stacked units, verify that the chains are hooked between the crates. These chains eliminate the possibility of the top crate falling into the lower during shipment.

How to Proceed

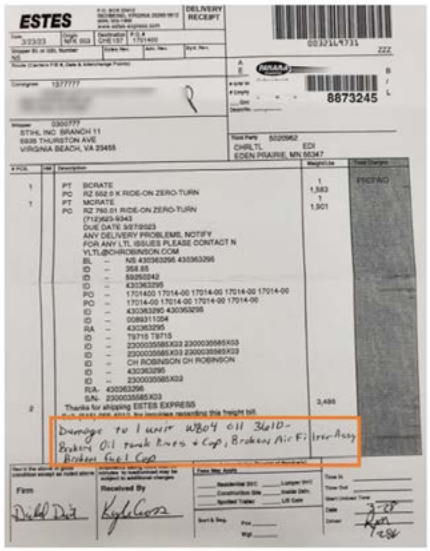
Always remove the tarp from the crate to inspect the units that you receive. You must remove the tarp and visually inspect each unit for damage before you sign the carrier's bill of lading.

If damage is present, take pictures. These pictures will be submitted to the Order Inquiries team, along with the NOTED AND SIGNED BILL OF LADING, as is outlined in the below process.

TRUCK FREIGHT:

Prior to signing for the shipment, count and inspect freight.

- All discrepancies for missing and damaged items must be clearly noted on the carrier's delivery receipt at the time of delivery.



- Pictures of the damage should be taken to properly document and report the damage to STIHL.
- The driver must sign your copy of the delivery receipt. Failure to do so voids STIHL's ability to file a claim with the designated carrier.
- When damage is found, an immediate inspection by the carrier's claims department must be arranged. To arrange for this inspection, contact STIHL's Order Inquiries team, within the Inside Sales Department. (Previously Known as STIHL Customer Service)
- Phone - (888) 784-8575
- Email - order.inquiries@stihl.us
- Claims for missing or damaged items should be made to the STIHL Order Inquiries team, within 5 days of receipt of the shipment. Claims that are reported outside of this 5 day period will not be considered for reimbursement. Once you have reported shipping damage to the Order Inquiries team, STIHL will file a claim against the carrier on your behalf.
- IMPORTANT - Shortages and visible damage not noted on the carrier's bill of lading at the time of receipt become the sole responsibility of the dealer. If credits are provided by STIHL for carrier claims regarding shipping damage, those credits will be charged back to the dealer if the carrier refuses the claim on the basis that the above policies and procedures were not followed.

DO NOT FILE WARRANTY CLAIMS FOR SHIPPING DAMAGE!

Pro Fleet Program- STIHL Zero-Turn Program

- In addition to the program details laid out in the Pro Fleet handheld program in this DSM, STIHL Zero-Turn mowers are a unique "add-on" unit. Qualifying zero-turn units include:

  - STIHL Professional RZ 500, RZ 700, RZ 900 and RZA 700 units.

- Full-line STIHL dealer will be eligible for a pro Fleet Program reimbursement based on the below chart. The discount will vary depending on the model and if it is part of a Handheld Tier or sold as a standalone purchase.
- This program is only available to companies who are using the product professionally. Organizations must have a federal tax id, not be a government agency, member of STIHL Incorporated's National Account Program, or considered non-profit under the conditions of 501c(3). If you have any questions regarding a customer's eligibility, please call your Territory Manager.
- Orders qualify when a customer:

1. STIHL Zero-Turn purchase with a qualifying STIHL power tool Pro Fleet purchase.
   a. Purchase $2,500 - $4,999 (Tier 1) or $5,000+ (Tier 2) in the STIHL Pro Fleet Power Tool Program to qualify and purchase a STIHL Professional model Zero-Turn.

   Example:
   1. A landscaper purchased $3,500 of qualifying handheld equipment (Tier 1) and purchased a RZ 700 with a $900 discount from the dealer. The dealer will receive an $800 credit.

   2. A landscaper purchased $3,500 of qualifying handheld equipment (Tier 1) and purchased a RZ 700 with a $500 discount from the dealer. The dealer will receive an $500 credit

2. STIHL Zero-Turn purchase without a qualifying STIHL power tool Pro Fleet purchase.
   a. Purchase 2 or more STIHL Zero-Turn units to qualify for discount and dealer reimbursement

   Example:
   1. A landscaper purchases 4 units (2 RZ 500 & 2 RZ 900) and the dealer gives a $500 discount on the RZ 500s and a $1,200 discount on the RZ 900s. The dealer would receive a $3,400 credit.
      - RZ 500s - $500 each and RZ 900 - $1,200 each for a total of $3,400

   2. A landscaper purchases 4 units (2 RZ 500 & 2 RZ 900) and the dealer gives a $800 discount on each of the RZ 500s and a $1,400 discount on each of the RZ 900s. The dealer would receive a $3,600 credit.
      - RZ 500s - $600 each and RZ 900 - $1,200 each for a total of $3,600

With Power Tool Qualifying Order

HANDHELD TIER	RZ 500	RZ 700	RZ 900	RZA 700
Handheld ProFleet Tier 1	$600	$800	$1,200	$1,800
Handheld ProFleet Tier 2	$800	$1,000	$1,400	$2,000

RZ/RZ Standalone ProFleet

RZ UNIT COUNT	RZ 500	RZ 700	RZ 900	RZA 700
2-9 Units	$600	$800	$1,200	$1,800
10+ Units	$800	$1,000	$1,400	$2,000

Charts above show the discounts per model both when qualified with a handheld purchase and with stand alone RZ purchase (2 tiers)

Bid Award Assistance (BAA)- STIHL Zero-Turn Program

- The STIHL Bid Award Assistance (BAA) program is designed to help the dealer recover a portion of the discount offered to an organization in order to win a bid award for the following qualifying STIHL Zero-Turn units:
    - STIHL Professional RZ 500, RZ 700, RZ 900, and RZA 700 series units

- Dealers may bid any discount amount he or she believes necessary to win a bid. STIHL will reimburse the dealer a fixed amount per RZ and RZA sold.
- The maximum MSRP discount that we will reimburse is shown in the chart below
    - Example:
    - A non-profit purchases an RZ 261 for $300 off MSRP. Dealer will receive a $300 credit
    - A government agency purchases a RZ 700 for $1,500 off MSRP. Dealer will receive a $1,200 credit.

	RZ 142	RZ 152	RZ 261	RZ 500	RZ 700	RZ 900	RZA 700
Dealer Credit	$300	$300	$500	$800	$1,100	$1,200	$1,800

Effective: January 1, 2024

For examples of Qualifying Entities and third party procurement exception, see the BAA section in this DSM.

- Requirements
    - Other than the third party procurement exception above, BAA product may not be resold, raffled, or otherwise transferred.
    - All STIHL products (including those purchased through a third party procurement agent) must be assembled and serviced, and must be demonstrated and delivered to the end user organization in person by the Dealer. This includes the safety information presentation already done for STIHL products sold to each retail customer. All units must be registered to the end user organization.
    - Products donated to any organization are not eligible for BAA reimbursement.
    - Dealer electronically submits the documentation via eBAA filing system including:
        - Dealer sales invoice with the official name of agency or organization including mailing address, phone number, contact name and email address. The invoice must show the model and serial number(s), along with the sale price and discount.
        - The tax ID number registered with the IRS. For more information go to: https://apps.irs.gov/app/eos/
        - Federal tax exemption verification for 501(c)(3) organizations is required through an IRS affirmation letter.
        - A copy of the PO from the agency or proof of payment (e.g. copy of the check or credit card receipt).
        - If selling to a third party procurement agency, a copy of the procurement agreement must be attached, including an order from the government agency to the third party procurement company for the product on the invoice.
    - Dealer must retain a copy of the documentation for two years.
    - Claims must be submitted within 60 days of the sale.
    - STIHL will audit claims and may request additional information.

All Claims must be submitted using the BAA website found on Dealer's Single Sign On page.

STIHL iMOW® Robotic Lawn Mower Dealer Guidelines

As an Independent STIHL dealer, you may have the opportunity to become a STIHL iMOW® robotic lawn mower dealer. In order to ensure a positive customer experience, STIHL has developed specific guidelines for retailing our robotic lawn mowers. The criteria required to be a STIHL iMOW® dealer, and the benefits thereof, may change from year-to-year. Meeting these guidelines requires an on-going commitment and participating dealer's compliance will be reviewed annually.

The requirements to be a STIHL robotic lawn mower dealer are:

1. **Dealership must be part of the STIHL Retail Readiness (SRR) program**
2. **Installation**
   - Installation must be offered to the customer with the purchase of every iMOW®.
   - If the Dealer will be installing the iMOW® for the customer, installation must be performed by an employee of the STIHL dealership, licensed contractor, or landscaper. If dealer intends to recommend a licensed contractor or landscaper to perform installation, the contractor/landscaper must attend a Branch provided, 3 day training course and provide a signed waiver form.
   - Only genuine STIHL installation materials may be used.
3. **Service**
   - On-site repair of iMOW® installations will be performed by a dealership employee.
   - Dealer should repair or diagnose an iMOW® unit within five business days; or, if the unit cannot be repaired within 5 days, provide an alternative for the customer to cut their lawn until the unit can be repaired, to prevent unmanageable grass growth repair.
   - Dealer will offer an annual iMOW® service program to the customer after the mowing season ends, meeting the minimum guidelines set forth by STIHL, which may be updated from time to time.
   - Clean iMOW®
   - Update the software/operating system, if and when updates are available.
   - Replace mowing blade and confirm blade installation on service screen.
   - Inspect all electrical connections and replace grease with STIHL DC4 or dielectric grease equivalent
   - Inspect the mower, including wheels, and the docking station for damage.
   - Verify functionality in service test area.
   - Dealership must purchase the special tools for iMOW®.
   - Dealer must provide its technician a laptop with internet access and proper diagnostic software to allow on-site service.
4. **Training**
   - The Dealer's employee(s) responsible for the sales, service and installation of iMOW® (and any recommended licensed contractors or landscapers) will attend a training course
   - Dealer will participate in on-going iMOW® training programs, as they are made available by STIHL.
   - In the event that a dealership no longer has an iMOW® trained employee, dealer agrees to send employee(s) to the iMOW® training outlined above within two months or to the next available training opportunity.
5. **Merchandising**
   - Use STIHL provided iMOW® POP.
   - Have an in store STIHL iMOW® display system.
   - Have an operating iMOW® on premise.
   - In store iMOW® demonstration display mat.
   - iMOW® operating on the dealership premise.

iMow® Pro Fleet Program

Program Purpose

The STIHL iMOW® Pro Fleet Program is designed to provide commercial landscapers and groundskeepers a volume discount on purchases of iMOW units and related installation materials. This program is only available to companies or agencies who are involved in the commercial landscaping or groundskeeping business on a full time basis. The organization must have a federal tax id, not be a government agency, member of STIHL Incorporated's National Account Program, or considered non-profit under the conditions of a 501c(3). If you have any questions regarding a customer's eligibility, please call your Territory Manager.

Program Details

Authorized STIHL iMOW dealers will be eligible for iMOW Pro Fleet Program reimbursement as outlined in the chart below:

iMOW Unit Purchase Quantity (A)	Recommended Discount (B)	STIHL Branch Contribution (C)
5-9	5% off Units + 20% off bulk install materials*	50% of Column "B"
10-39	10% off Units + 20% off bulk install materials*	50% of Column "B"
40+	20% off Units + 20% off bulk install materials*	50% of Column "B"

*Eligible iMOW installation materials = perimeter wire, perimeter wire stakes, perimeter wire repair connectors

- The iMOW Pro Fleet customer's original qualifying purchase makes that customer's future re-orders eligible for the iMOW Pro Fleet program (and 50% of the discount contribution to the participating Dealer), throughout the following rolling twelve months for all iMOW units (even single unit orders).
- iMOW purchases will accumulate as long as a minimum yearly purchase of 5 units is made.
- Example: Year one, the customer purchases 5 units and qualifies for a 5% discount. Year two, the same customer purchases 10 additional units. The total purchases for that customer is now 15 units. They now qualify for a 10% discount on the units purchased in year two.
    - » Failure to purchase a minimum of 5 iMOW units in a calendar year resets the discount level to 0.
- Dealer may offer greater discount at its discretion. STIHL contribution is limited to 50% of recommended discounts (see chart). Dealer must provide at least the recommended discount to qualify for reimbursement.
- Dealer may offer customer a 20% discount on customer's purchases of unlimited installation materials (as defined above) with qualifying unit purchase only, and Dealer will be eligible to receive contribution of 50% of the 20% discount.
- The discount given must be the same for all qualifying units on the purchase to be eligible for contribution from STIHL.
- This program is only available to STIHL iMOW Dealers who are in good credit standing with STIHL.
- All appropriate forms must be submitted to STIHL within 60 days of the sale.
- No additional discounts or programs will apply.
- Once a customer qualifies for the Fleet discount, they may purchase additional iMOW units at any participating STIHL iMOW Dealer through the iMOW Pro Fleet program. Discounts may vary.
- iMOW units may only be installed by a trained installer. Landscapers may request installation through an authorized iMOW dealer or may elect to become a trained installer. Please contact your STIHL branch representative for more information.
- Dealer must complete the Pro Fleet Reimbursement Form and attach the sales invoice indicating the qualifying serialized products and accessories, along with a copy of the eService product registration to receive appropriate credit.
- STIHL reserves the right to modify and/or change this program with or without notice.

To receive reimbursement, the Dealer must submit the following within 60 days of the date of sale:

- Copy of the invoice to the customer
- Copy of the eService product registration
- Complete iMOW Pro Fleet Program Reimbursement Form (available on STIHL eBiz Downloads)

Send all documents to:

Email: profleet@stihl.us | Fax: (757) 486-9249 | mail: 536 Viking Dr. Virginia Beach, VA 23452

iMow® Pro Fleet Program Reimbursement Claim Form

Dealer Name: _____ **Dealer Number :**_____

Landscaper Name:_____

Date of Sale: _____ **Invoice Number:** _____

The Branch will credit dealer up to 10% of the MSRP if all of the Pro Fleet Policy terms are met.

- Dealer must provide a completed reimbursement claim form with a copy of the invoice and a copy or screenshot of the registration(s).
- The invoice must show pricing, model numbers and serial numbers of all units sold to the customer
- IMPORTANT: Check policy in current Dealer Support Manual for listing of eligible units and additional details.

iMOW Unit Purchase Quantity (A)	Recommended Discount (B)	STIHL Branch Contribution (C)
5-9	5% off Units + 20% off bulk install materials*	50% of Column "B"
10-39	10% off Units + 20% off bulk install materials*	50% of Column "B"
40+	20% off Units + 20% off bulk install materials*	50% of Column "B"

*Eligible iMOW installation materials = perimeter wire, perimeter wire stakes, perimeter wire repair connectors

You and the STIHL Customer

As a STIHL dealer, you are the only part of the STIHL distribution system to have direct contact with the STIHL customer. It is important that a customer knows and respects his equipment. Power tools, if improperly used or maintained, can be dangerous. It is your responsibility to advise your customer concerning product safety, including proper accessories. With respect to chain saws, for instance, you should advise the customer about the reduced kickback bar, low kickback chain and the STIHL Quickstop® chain brake.

- Make sure the purchasers of any new STIHL product receive the instruction manual, as well as any other literature and warnings that accompanied the product.
- Make sure that the purchasers of used products, and customers who bring in equipment for repair, receive current warning labels and safety manuals.
- Always properly assemble and service all STIHL products for the customer, with limited exceptions. Certain battery and corded electric products may be sold to the customer in the box, but must be assembled if requested by the customer. With the exception of chain saws and pole pruners, all AK and AI units & Corded Electric products as well as the HSA 26, RMA 510, FSA 85, HSA 66, BGA 85, and GTA 26 may be sold in the box.
- Demonstrate the correct way to start the unit.
- Demonstrate proper cutting techniques and safety features such as the chain break.
- Recommend the appropriate protective apparel and explain why it is necessary.
- Explain the limited warranty, process the product registration, and have the customer acknowledge that the information was reviewed. Please understand the importance of properly and completely filling out the product registration through STIHL eService or the STIHL Edge kiosk. Safety instruction acknowledgment by the customer is vital.
- Never disconnect, remove or deactivate any safety device or control on the equipment. It is good practice to note on a repair work order any modifications, removal or deactivation of safety equipment that had been done to the equipment when it was received at your shop. Call these to the attention of the customer and recommend that any such matters be corrected, and the equipment put in proper operating condition. These safety devices are there for everyone's protection. Note that you have notified the customer on the work order. Also note if the customer refuses the recommendations.
- Do not use obsolete instruction manuals or sales literature. If you have any questions concerning whether any particular sales literature or instruction manual may be outdated, contact STIHL.
- Do not place unauthorized attachments or unauthorized replacement parts not manufactured by STIHL on STIHL powerheads.
- Keep accurate records of inventory, sales dates, serial numbers and repairs to STIHL products.
- STIHL provides safety labels (0000 967 3541 and 0000 967 3613), as well as safety manuals for chain saws, cut-off machines and brushcutters free of charge. Spanish versions are also available. Provide this literature to your customers when a product is brought in for repair. Put a sticker on the equipment and give the customer a safety manual.
- The dealer invoice should give the name of the purchaser, model and serial number of the equipment, length and type of bar and the type of chain. After proper instruction and demonstration, the product registration must be submitted through eService.

Recommended Business Practices for All STIHL Rental Dealers

It is the dealers' responsibility to advise the customer concerning product safety and available protective apparel. When selling or renting a chain saw, STIHL Cutquik® Cut-off machine, trimmer / brushcutter, hedge trimmer, pruner, auger, blower, sprayer or pressure cleaner, you should provide the following services to your customers:

- Properly assemble and adjust the unit.

- Give the customer an instruction manual or safety manual and note this on the rental agreement or invoice. The following is a listing of part numbers for safety manuals in Spanish and English:

	English	Spanish
Chain Saws	0457 184 3021	0457 184 3121
Trimmers / Brushcutters	0457 187 0121	0457 187 3121
Cut-off Machine	0457 186 0121	0457 186 3121
Hedge Trimmers	0457 189 0121	0457 189 3121

These instructions and safety precautions can reduce the risk of injury to your customers. Advise the customer that anyone using the product must first read and understand the manual.

You must also be familiar with the unit's instruction manual / safety manual and point out to the customer the safety precautions and warnings contained in it. Describe reactive forces, their causes and how to avoid them.

Reactive Forces by Product

Chain Saws
Kickback
Pull-in
Push-back

Cut-Off Machines
Reactive forces, Including Kickback
Never use circular saw blade
Never cut wood of any type

Blowers
Reactive forces on nozzle

Brushcutters
Kick out

Augers
Rotational Force

- Point out and discuss the safety features on the unit.

- Demonstrate the correct way of starting the unit and the proper operating techniques.

- Make sure the warning decals are in place; if not, apply white decal (0000 967 3613) for chain saws, yellow decal (0000 967 3541) for all others.

STIHL Websites

STIHLusa.com and STIHLdealers.com
STIHL customers can easily locate their nearest dealer by simply entering their Zip Code and querying the interactive database. Visitors to this site can find detailed information, specific features, and technical information on STIHL power tools, including chain saws, blowers, brushcutters, trimmers and industrial tools. Check out this site on a regular basis to see what's new at STIHL and to see what your customers are looking at when they visit.

eBiz
Please go to eBiz via Single Sign-On (http://dealers.STIHLusa.com).
The eBiz is the gateway for placing order with STIHL and for paying your invoices with STIHL. From eBiz you can place orders, check product availability and reprint past invoices. Please fill out the online form to get your user name and password.

STIHLeservice.com
The eService website is your gateway to technical information on STIHL products. From eService you can register STIHL products, look up parts and file warranty claims. Please go to eService via Single Sign-On (http://dealers.STIHLusa.com). Your log in credentials are your dealer number as the account number, user id and password.

STIHLiCademy.com
STIHL Incorporated has established an interactive training website. It is recommended to access this site through the STIHL Single Sign On (SSO) page. If access it using STIHLicademy.com, your login is your SSO username. Otherwise, it is the email address that was provided on the original iCADEMY® site. STIHL dealers can create their own accounts for their employees and then track their progress. iCADEMY® has the latest training on STIHL products as well as merchandising, customer service, technical training and much more.

STIHLmarketing.com
This site is filled with artwork and copy, downloadable radio spots and a revised ad planner that includes new ads for storm seasons, open houses, and servicing dealers. It is password protected. Your I.D. is your STIHL dealer number and your password is your zip code.

STIHL Service Information App
The STIHL Service Information App provides STIHL product and service information at your fingertips. The app provides quick and easy access to information about assembly, operation, and diagnostics of STIHL consumer battery products as well as other useful product information to assist the retailer's employees. The app can be downloaded to a smart phone or tablet free of charge through the Apple App Store or Google Play by searching "STIHL Service." Employees will need their STIHL iCademy® log-in credentials to initially access the app.

Technical Library - STIHL Service Communication
Technical information and parts look-up is available using STIHL Service Communication (SSC) website. This method is the most current and best method to access technical and spare parts information. Not all spare parts shown in parts look-up diagrams will be available to STIHL BER's. Contact your STIHL Branch for a list of select spare parts that are available to retailers.

Literature
English Literature (0463 931 3023) is packed 30 pieces per box. To prevent repacking by the warehouse, dealers are asked to order by the case.

Shipping and handling costs are the responsibility of the dealer unless the literature request is included on a qualifying freight prepaid order.

Trademark Policy

STIHL encourages its dealers to promote STIHL products. However, since the STIHL name and trademarks are owned by STIHL and are among the company's most valuable assets, quality control guidelines and monitoring of the use of the trademarks are necessary to protect their integrity and the public image of STIHL and its products. Therefore, STIHL servicing dealers are required to follow these guidelines when using STIHL trademarks:

- **Advertising:** Dealers may use the STIHL name, trademarks and logos in advertising STIHL products in their area. STIHL makes appropriate artwork and other resources available through many means, including www.STIHLmarketing.com. Any other advertising created independently by the dealer using the STIHL name or trademarks must be approved by the dealer's distributor or branch. This requirement supplements and does not supplant any additional requirements a distributor or branch may have.

- **Promotional and merchandising items (hats, shirts, jackets, mugs, etc.):** Such items depicting the STIHL name or trademark must be purchased through STIHL or the dealer's distributor or branch using pre-approved licensees to assure appropriate use of the name and trademarks. No promotional or merchandising items may be produced by a STIHL dealer without the prior approval of STIHL through the dealer's distributor or branch.

- **Sponsorships:** Dealers are free to sponsor organizations, entities or events (e.g., automobiles or other racing events, lumberjacks and lumberjack events, sports teams, entertainment services, etc.) in their own name. Dealers should not use the STIHL name, logo or trademarks in such sponsorships without the prior approval of STIHL through the dealer's branch.

Please refer to the registered STIHL trademarks page at the beginning of the policy and procedure section for a complete listing of trademarks owned by ANDREAS STIHL AG & Co. KG, Waiblingen.

Technical Information Updates

STIHL offers Illustrated Parts Lists, Technical Information Bulletins, Workshop Manuals and other related technical information in several formats for our servicing dealers. We recommend that dealers use STIHL Service Communication (SSC) or ARI's PartSmart. STIHL technical information is also available free of charge at STIHLeservice.com and http://www.stihlicademy.com.

All STIHL dealers must have at least one of these formats available in order to provide service to our customers.

Periodic updates detailing new products, product improvements or modifications will be sent to every dealer, as they become available from STIHL Incorporated.

There is an annual charge depending on the service utilized that will be invoiced to the dealer account as a onetime charge during the calendar year and will include all updates throughout that year.

Technical Literature Delivery Method	Fee
Web Only or STIHL Service Communication	no charge
PartSmart literature or STIHL Service Communication DVD	$85

If you wish to make changes to your technical subscription, please fill out the form at the end of this section.

Technical Training Cost

- Silver Level Training, two day course: $150
- Gold Recertification, one day course: $75

Internet Policy

STIHL INCORPORATED
Dealer/Retailer and Distributor Internet and Ecommerce Policy – 2023 ("Internet Policy")

Revision Effective Date: May 30, 2023

Trademarks, Content, and Social Media:

Use of STIHL Trademarks on the Internet

1 Permitted Uses. Use of STIHL trademarks on the Internet, like all uses of STIHL trademarks by authorized dealers, retailers or distributors, must be only in connection with the promotion of STIHL products. Any use of a STIHL trademark in connection with other goods or services constitutes trademark infringement and will be treated as such.

2 Domain Names, Social Media and Email Address. Under no circumstances shall a STIHL dealer or retailer (collectively referred to herein as "Retailer") use the mark "STIHL" in a domain name, social media or email address. Usage of the mark STIHL or any other STIHL trademark in a domain name, social media or email address may be confusing or deceptive to consumers and as such violates STIHL Inc. policy, as well as federal and state trademark laws. Any such usage shall be regarded by STIHL Inc. as trademark infringement. STIHL Inc. will take action, including legal action as it deems appropriate, to prevent consumer confusion and to protect STIHL trademarks.

3 Acknowledgement of Trademark Ownership. Use of any STIHL trademarks on a Retailer or distributor's website or social media site should be accompanied by a notice indicating that the STIHL logo and any other STIHL trademarks in use on the site are registered trademarks of Andreas STIHL AG & Co. KG, Waiblingen. See Website Content (Item 5) below, for additional information about required notices.

Website Content

1 No Misleading References to Corporate Affiliation. Nothing on a Retailer or distributor's website should imply that the site is a STIHL corporate site or is a site sponsored by STIHL except for Retailer websites provided through the STIHL PowerChord™ program or otherwise as may be offered by STIHL Inc. from time-to-time. Similarly, nothing on a Retailer's website should suggest or otherwise convey that it is the only STIHL Retailer site or that the Retailer has any kind of "preferred" or elevated status as compared to other STIHL Retailers, except as STIHL Inc. or the STIHL branch/distributor may specifically authorize (e.g., "SRR," "Elite" or STIHL Service Advantage Gold or Platinum Certified).

2 Links. STIHL Retailers and distributors may include links on their websites to STIHL Inc.'s website, https://www.stihlusa.com. STIHL Inc. policy does not permit the placement of links from www.stihlusa.com to Retailer's sites. The only authorized link from www.stihlusa.com and/or the STIHL Dealer Locator is to a STIHL PowerChord™ website.

3 Advertising/Promotional Materials. In consideration for the advertising support STIHL Retailers provide to STIHL Inc. by the promotion of STIHL products on such Retailer's websites, STIHL Inc. hereby grants to each such authorized Retailer a license to reproduce graphic material and textual material in the nature of product photographs, descriptions, and specifications, from STIHL Inc.'s website (www.stihlusa.com), the STIHL Marketing Library (www.stihlmarketing.com), or from data feeds provided by STIHL Inc. for use on such Retailer's website for the purpose of promoting and/or selling STIHL products/services only.

- Retailer will use only STIHL-supplied images or images approved by STIHL Inc. and ensure that all product images and descriptions are accurate and up-to-date. Retailer will use quality graphic representation of the product and provide ample product information to support the sale. If the Retailer uses brand-specific product pages, the Retailer must provide a STIHL-only product section or page accessible within a few clicks of the home page. No other brand

of product shall by displayed on the STIHL brand page.

- The Retailer shall use the advertising and sales promotion material offered by STIHL Inc. or the Retailer's branch or distributor. Retailer may supplement this material with its own advertising and sales promotion activities provided they correspond to the material offered by STIHL Inc. in terms of content and quality. Retailers must review and understand all of STIHL Inc.'s policies that are relevant to advertising and sales over the Internet, including the Minimum Advertised Price Policy.

4 License Usage. This license specifically excludes use on any third-party websites, including but not limited to online marketplaces, internet auction sites, or sales websites. The license granted herein relates to photographic, video, and textual material only. Nothing in this policy shall be construed as granting a license in any proprietary software or search mechanisms, including, without limitation, the "Dealer Locator" and other programs located on STIHL Inc.'s website. This license shall extinguish immediately upon termination of the supply relationship between the Retailer and the distributor or branch.

5 Marketing Materials. STIHL Inc. has developed a file transfer protocol (FTP) to provide Retailers with a downloadable "library" of product materials (www.stihlmarketing.com) for use by Retailers on their websites. All materials made available to Retailers through such enhancements are subject to the terms and conditions set forth in this Internet Policy, as it may be amended from time to time at STIHL Inc.'s sole discretion. STIHL Inc. shall not be responsible for any Retailer's use of marketing materials and/or social media posts made available on the STIHL Inc. Marketing Library that is not in accordance with STIHL Inc. policies and procedures, including, but not limited to, any changes of approved material, failure to provide disclaimers, and responses to social media postings.

6 Acknowledgement of Intellectual Property Ownership. Any use of STIHL's intellectual property on a Retailers' website (for example, copyright-protected photography, textual material licensed in accordance with this policy, or trademarks used in connection with such material) should be accompanied by a notice acknowledging STIHL's ownership of such property and indicating that its use on the Retailer site is by permission. STIHL Inc. strongly encourages Retailers to include a "legal notices" or "terms and conditions" page on their websites, to provide visitors with appropriate legal information about use of the site, but in any case, notices with respect to STIHL's intellectual property must be included on the site. With respect to the copyright-protected material licensed from STIHL Inc., the Retailer's website should acknowledge STIHL's ownership of the licensed materials and specifically grant the website visitor the right to view and download a single copy of the material for their personal, non-commercial use. Any questions regarding the proper use of STIHL intellectual property should be directed to the Legal Department, STIHL Inc.

Social Media:

1 Definition. "Social Media" is a broad term for the wide spectrum of web based and user-driven content technologies used to engage the public in discussions, market products, and collaborate internally and externally. Examples include but are not limited to blogs, wikis, Facebook, Twitter, Instagram, Flickr, LinkedIn, TikTok and YouTube.

2 Official STIHL Spokespersons. Only individuals specifically authorized by STIHL Inc. may use social media tools in an official capacity and speak on behalf of STIHL Inc.

3 Representation of STIHL via Social Media. Retailers may only disclose publicly available information. No comment or disclosure of confidential STIHL information (such as financial, marketing, sales, technical or engineering information; business performance, business plans, management issues) may be made. All information, materials or imagery disclosed must conform to policies and guidelines for public disclosure. In general, information contained on the STIHL Inc. website and social platforms represents information that is in the public domain.

4 Social Media Postings. Retailers should ensure they do not post material that advocates violence, or is obscene, defamatory, threatening, harassing, discriminatory or hateful to another person or

entity. Retailers should also ensure they do not imply in any way that they are authorized to speak on STIHL Inc.'s or its distributors' or branches' behalf and ensure that it is known their comments are their own personal opinion. Any information about STIHL products and services that they provide must be informed, factually accurate, and public information. It is strongly recommended that Retailers repurpose materials used on the official STIHL Inc. social platforms, or the social media section of http://www.stihlmarketing.com/ Retailer specific information as appropriate.

5 Use of STIHL copyrighted material. Any use of STIHL logos, imagery, product descriptions, trademarks and other information must be factually accurate and comply with relevant STIHL Inc. policies, particularly those relating to confidentiality and disclosure, as well as STIHL Inc. marketing guidelines for use of such information and material.

6 Endorsements. Retailers should ensure that any endorsement made, either directly or by implication, of any product, service, policy, activity, individual or entity is clearly identified as being a personal one and cannot be interpreted as representing an official position of STIHL Inc. or its distributors and branches. If endorsing or recommending STIHL products, Retailers must disclose that they are a STIHL Retailer.

7 Social Sharing Widgets. Third-party social sharing widgets like 'Share This' or 'Add This' should not be incorporated into any marketing materials or internet properties as the sharing of personal information with a third party or non-affiliated company of STIHL Inc. goes against current STIHL Inc. privacy policy. Only social sharing widgets provided by STIHL Inc. should be used. The approved widgets may be downloaded from the STIHL Marketing Library (www.stihlmarketing.com)

ECOMMERCE

Internet Sales

1 Authorized STIHL Retailers will be permitted to offer their customers the option to Buy Online, Pickup in Store ("BOPIS") and Buy Online, Deliver from Store ("BODFS") from Retailer's own websites ("Approved Retailer Online Shops") and STIHL-provided platforms (including PowerChord™ Retailer Sites, collectively referred to as "STIHL-Provided Platforms"). Ship to home is permitted for the certain authorized products described below on STIHL-Provided Platforms as of 30 May, 2023 and for Approved Retailer Online Shops as of 31 July, 2023.

2 Delivery Methods. Authorized STIHL Retailers can offer multiple options for delivery including:

- BOPIS: Customers pickup their online purchase in-store.
- BODFS: Products are personally delivered to the customer by Retailer personnel that are trained on STIHL products and delivery. Retailer shall follow all requirements set forth in the Dealer or Retailer Support Manual, including setup and service of the products sold online, delivered, instruction to the customer, registration of the product, and delivery of the instruction manual and other educational material.
- Ship to Home: Select products are approved for authorized Retailers to ship to home.

	Overview	Authorized Assortment	Possible Websites
BOPIS	In-store pickup	All STIHL products	▪ STIHL-Provided Platforms ▪ Approved Retailer Online Shops
BODFS	Premium delivery service mirroring the in-store experience	All STIHL products	▪ STIHL-Provided Platforms ▪ Approved Retailer Online Shops
Ship to Home	Products shipped and dropped off at the destination	▪ Battery ▪ Corded electric ▪ Accessories and attachments ▪ Apparel and OUTFITTERS™ merchandise **Excluded products: All other products including but not limited to gas units, iMow, and spare parts are not authorized to be shipped to home**	▪ STIHL-Provided Platforms ▪ Approved Retailer Online Shops (Effective 1 June, 2023)

3 Any product shipments made pursuant to an online sale must include all operator manuals and any other standard documentation and accessories, to no lesser extent than such documentation and accessories would be included with a sale made from a Retailer's physical location (and as otherwise may be required by STIHL Inc. dealer support manuals and policies).

4 Retailers must ensure proper packaging, handling, labeling, and marking of any products shipped pursuant to an online sale, in, compliant with applicable shipping regulations by appropriate route of travel.

5 Retailers must review and understand all of STIHL's policies that are relevant to sales over the Internet, including the Minimum Advertised Price Policy ("MAP Policy").

Approval of Retailer's Online Shop

1 Before the Retailer begins selling products in its Approved Retailer Online Shop, it must obtain STIHL Inc.'s approval through the Retailer's branch or distributor. STIHL Inc. and the Retailer's branch or distributor reserve the right to deny approval, at its/their sole discretion.

2 Such approval shall not constitute a guarantee by STIHL Inc. or the branch or distributor regarding the Retailer's success in selling products over the Internet.

3 The Retailer has the ongoing obligation to comply with these guidelines following initial approval. STIHL Inc. or the Retailer's branch or distributor may, at any time, and at its/their sole discretion, revoke any and all permissions and licenses granted under this policy, including approval of the Approved Retailer Online Shops.

Restrictions on selling

1 With respect to each approved Online Shop: (a) Retailer will not sell anonymously and must clearly indicate Retailer's full name, address, telephone and email contacts; and (b) such site will not give the impression that it is operated by STIHL Inc.

2 STIHL products are not permitted to be sold for the purpose of resale. Retailers are not permitted to sell products online to any commercial or private resellers.

3 STIHL products may only be shipped within the United States or its territories.

4 The California Air Resource Board (CARB) has enacted emissions and air-quality regulations (including labeling requirements) that are different from, and more stringent than the requirements applicable to the remaining 49 States. The sale or importation of non-compliant products into California can subject STIHL Inc. and the Retailer to substantial fines and penalties. Accordingly, no Retailer located outside of California may make any sale or shipments of products into California unless such products are CARB compliant, labeled according to California law (including Proposition 65), and the Retailer has received written permission from STIHL Inc. to make such sales or shipments. Violators of this Internet Policy will be liable to STIHL Inc. for any and all costs arising out of a violation of this section, including costs of recall, replacement of non-compliant products, fines, and reasonable attorney's fees.

5 Retailer shall not place or offer directly or indirectly any STIHL products for sale, auction, or resale on 3rd party marketplaces or websites. Examples include Amazon, eBay, Facebook, Walmart.com, and Craigslist.

Essential content of the Online Shop

1 The Retailer must ensure that the following content appears on all Approved Retailer Online Shops where STIHL product is sold or offered:

- the terms and conditions for online ordering, payment and return (the Retailer's general terms and conditions of business)
- the Retailer's privacy statement and policies
- Retailer location(s) and address(es) where the product may be picked up in-store, as well as hours of operation
- all other relevant content required by any local, state, or federal law or regulation, in particular under the relevant laws for online sales

2 Retailer shall update its Approved Retailer Online Shops on a regular basis to show only current STIHL product offerings (including items in Retailer's inventory), and clearly indicate on the website whether a product is out of stock or special order. Retailer accepts sole responsibility for maintaining adequate inventory of all STIHL products offered for sale.

Presentation, functionality and security of the Online Shop

1 Approved Retailer Online Shops should adhere to reasonable loading times and site performance standards.

2 Approved Retailer Online Shops must have the ability to filter products or product categories by the STIHL brand, as well as include STIHL products in generic product category searches.

3 The product range must be presented in a context specific to outdoor power equipment and create an environment consistent with STIHL standards.

4 Every product presented in the Approved Retailer Online Shops must be advertised with the respective up-to-date technical descriptions and at least one high-quality image. The Retailer shall always adopt the current STIHL logo in its Approved Retailer Online Shops. STIHL products advertised, promoted or offered for sale by Retailer shall be prominently displayed on each Approved Retailer Online Shop and will: (a) use only the STIHL logos, product images, product names, product descriptions, technical specifications, warnings and other important information provided or approved by STIHL Inc. (Retailer is responsible for obtaining such logos, images, descriptions, and specifications from the STIHL Marketing Library or other data feeds provided by STIHL Inc.) and (b) STIHL products and the STIHL brand will be given substantially equal prominence as the other products and brands advertised, promoted or offered by Retailer.

5 It is expected that the Retailer will process and fulfil orders in a timely manner to meet the expectations of Retailer's customers. The Retailer shall specify when the product will be available for in-store pick up and how long the customer has to pick up the product. If products are unavailable, the Retailer shall notify the customer that the product is "out of stock" or "backordered" until a particular date.

6 The Retailer shall ensure a simple and user-friendly product selection process. This shall include:

- user-friendly navigation and search features
- full-text searches and options menu for the various product categories
- secure and easy-to-use shopping basket with a storage feature in which a customer may remove items and make adjustments to quantities while obtaining a clear statement of all charges, including all product costs and taxes
- uncomplicated order and payment process

7 For payment and websites containing customer data, the Approved Retailer Online Shop must use state of the art security technology following PCI Security Standards.

Customer support and consumer education

1 The Retailer shall offer a customer support email address or telephone number, accessible during store-based hours to provide customer advice as needed.

2 The Retailer shall include in its Approved Retailer Online Shop links to www.stihlusa.com/information, containing educational product use information provided by STIHL Inc., including "How To…" or "How Do I…" videos.

Product delivery, management of returns

1 Retailer shall provide the customer with information regarding any anticipated delays or backordered items following order placement by the customer. In the event a product is delayed or backordered, the customer should have the option to cancel the order upon notification. If the Retailer is unable to process orders from customers (e.g. due to holiday leave/illness or storm/weather event), it shall notify the customer prior to the order.

2 The Retailer shall maintain a return policy that is consistent with STIHL Inc.'s 7-day, satisfaction guarantee policy (as may be amended by STIHL Inc., from time to time), and a return/credit

management system which is reasonable and adequate for customers to return merchandise to the Retailer and receive credit for items purchased through the Approved Retailer Online Shops.

Sales process

1 For online orders, Retailer shall follow all requirements set forth in the Dealer or Retailer Support Manual, including set up and service of the products sold online, shipped to home, delivered to home, or picked up in store (where required), instruction to the customer, registration of the product, and delivery of the instruction manual and other educational materials.

STIHL-Provided Platforms (including "PowerChord™" Retailer sites)

1 STIHL Inc. offers its Retailers a STIHL-provided online and e-commerce platform. Details regarding reporting and technical requirements for set up and management of a STIHL-provided online and e-commerce platform are available through the Retailer's respective distributor or branch.

2 STIHL Inc. shall offer technical support enabling the Retailer to use the STIHL-Provided Platform. Contact information for technical support is available in the Dealer or Retailer Support Manual.

3 All license and right to use such platform shall automatically end when the Retailer relationship is terminated.

Miscellaneous

1 No Reliance. STIHL reserves the right to change this policy at any time, at its sole discretion, and without notice. Any investment made by a Retailer in website development and Internet marketing in reliance on this Internet Policy is made at the Retailer's own risk.

Minimum Advertised Price Policy ("MAP Policy")

STIHL Inc. ("STIHL") recognizes the value to end users of authorized dealers and retailers (collectively, "Retailers") providing the services of stocking, promoting, servicing and supporting STIHL products ("Products"). STIHL desires to promote such services with advertising that focuses on high quality, outstanding performance, unique features, customer service, and other attributes that convey the superior brand image associated with STIHL and its Products. Advertising or promoting discounts erodes the perception of STIHL Products and the STIHL brand in the view of end users in our opinion, and also reduces the incentives of Retailers to support and sell STIHL Products.

Effective as of **May 30, 2023** for internet and digital advertising, and **January 1, 2024** for print and all other advertising, STIHL has adopted this Minimum Advertised Price Policy on brand image and advertised prices to promote advertising that best supports STIHL's superior brand image. The Minimum Advertised Price Policy is a unilateral policy of STIHL and is not a part of or incorporated into any agreement that STIHL has with any distributor or Retailer. STIHL applies its Minimum Advertised Price Policy to any Retailer who purchases and resells STIHL Products in the United States or its territories.

1. Sales Price. **YOU ARE FREE AT ALL TIMES TO SELL A STIHL PRODUCT AT ANY PRICE YOU CHOOSE.** STIHL does not control the prices at which you sell STIHL Products. You are free to exercise your own independent business judgment in choosing the prices at which you sell STIHL Products. STIHL does not seek to obtain, and it will not accept, any agreements, promises, assurances or commitments with, or acquiescence from you or any other customer as to the price at which the Products are advertised or sold.

2. Advertised Price. Unless otherwise specified in the MAP Policy or stated in writing by STIHL, the minimum advertised price ("MAP") for any STIHL product covered by the MAP Policy is the manufacturer's suggested retail price ("MSRP") for that product.

   From time to time, STIHL may approve and offer, through its distributors and branches, special retail promotions for Retailers via a Promotional Minimum Advertised Price ("PMAP"). During these authorized periods, the advertising of PMAP pricing will not be considered to have violated the MAP Policy.

3. A Retailer may round down to a maximum of $0.99 to support its own internal advertising pricing strategies.

4. This Policy covers all advertising materials that are posted anywhere other than the Retailer's physical premises, including but not limited to advertising materials that are posted anywhere on an Internet website, direct email advertising, advertising materials that are accessible through a website by means of a hyperlink, pop-up or banner ads, search engine shopping sites, comparison search engine ads, Facebook and social media pages, broadcast advertising, print advertising and mailings, and billboards (except billboards located on a Retailer's physical premises). If a Retailer advertises other brands or products at a reduced price, discount, sale or promotion, or advertises general storewide discounts, such advertising must clearly and prominently communicate that STIHL Products are excluded.

5. STIHL is not dictating the price of, and this Policy does not apply to, the Products that Retailers sell or advertise in or at a physical store location (including point of sale signs, hang tags, and other in-store marketing). This Policy relates solely to the advertising of STIHL products by Retailers in advertising posted anywhere other than the Retailer's physical premises, including over the Internet.

6. If a Retailer chooses to sell a Product on its e-commerce website for less than the MSRP, such discounted price will not be advertised on the website and will only be displayed after the customer has entered the Product(s) in the shopping cart. If a price lower than MSRP is displayed in the

shopping cart, the Retailer is required to implement a reCAPTCHA in order for customers to view the price.

7. Consequences for Violations. If you advertise a STIHL Product at a price below the MAP or PMAP, or advertise a STIHL Product with pricing related phrases that would lead a customer to think that the prices are below the MAP or PMAP, such as "too low to advertise," **STIHL, or the Retailer's branch or distributor, reserves the right, at its sole discretion, to take any steps it deems appropriate to penalize you, up to and including termination of your Retailer relationship with STIHL, or the Retailer's branch or distributor**.

8. STIHL does **not** solicit information, or encourage or desire reports, regarding "violations" of this policy. STIHL personnel are not permitted to discuss other Retailers' "violations" of this policy, or any other policy with you. If you do send information to STIHL, your distributor/branch, or your territory manager about advertising or sales by other Retailers, you will not be contacted by us and we will not engage in any discussions with you about the information received or any action that may be taken. STIHL independently and unilaterally administers all of its policies, including this Policy.

9. This Policy applies to Retailers only in the United States and its territories, and the terms of the Minimum Advertised Price Policy do not apply to the extent any state or U.S. territory by law expressly prohibits policies on minimum advertised prices.

10. All questions regarding this Policy should be directed only to the senior management of STIHL through your distributor/branch distributor principal/director of branch operations). No other distributor/branch employee, including territory managers, have been authorized to discuss this Minimum Advertised Price Policy.

11. This Policy contains a unilateral statement of the terms of STIHL's Minimum Advertised Price Policy. STIHL neither seeks nor will accept your agreement with or to this Policy.

STIHL may modify or terminate this Minimum Advertised Price Policy at any time.

Business Relationship

Our Relationship

As an authorized independent STIHL dealer, you are an independent contractor. The relationship between us, as contracting parties, shall in no way be construed or considered to be one of partners, joint ventures, franchiser-franchisee, employer-employee, principal-agent or any other relationship except that of independent contractor. As an independent contractor, an authorized independent STIHL dealer shall have no right or authority, expressed or implied, to represent us in any capacity or transact any business or incur any obligation for, in the name of, or on our behalf. You agree that your relationship with us is and shall be that of a purchaser of products. In the event that any governmental authority, including any court of competent jurisdiction or applicable administrative agency, shall determine that the relationship between us is one of partners, joint ventures, franchiser-franchisee, employer-employee or principal-agent for any purpose, then either party hereto shall have the right to terminate the supply relationship at any time thereafter by giving written notice thereof to the other party not less than 30 days prior to the date of termination or as set forth by applicable state law, if any.

Transfer of Ownership

Authorized STIHL dealerships are not transferable if your dealership is sold. It is the responsibility of the selling dealer to notify STIHL of the intended sale. The new owner may apply for a STIHL dealership through the Territory Manager.

Authorized STIHL dealerships are not transferable if your dealership is relocated or opens additional locations. It is the dealer's responsibility to notify STIHL of their intention to relocate their existing business or open additional outlets. Dealers that intend to relocate or expand their businesses to other locations may apply for a STIHL dealership for these new location(s) through their Territory Manager.

Termination

It is our intention to create an "at will" relationship with each of our authorized independent dealers. Under the terms of an "at will" relationship, either party may terminate this relationship with or without cause, by giving thirty (30) days advance notice of the intention to terminate the supply relationship to the other party or as set forth by applicable state law, if any.

Policy Changes

These Policies may be changed at any time by STIHL at its sole discretion.

National Account Landscaping Program (NALP)

Program Purpose

The National Account Landscape Program (NALP) provides qualified participants NALP pricing. Dealers who sell to these accounts will receive a credit for each product sold. Participation in this program is voluntary. Dealers are not required to honor NALP pricing.

Program Overview

To receive credit a dealer must sell at the exact published NALP and submit a completed Landscape Assistance claim form (available on eBiz under the "Information" tab and then click on "Downloads") and all required documentation within 60 days from the date of sale. The National Account Landscape Program is only available to Dealers who are in good credit standing with STIHL. Please submit all claim documents to Dawn.Beauchemin@STIHL.us or fax to 203.944.5642.

Program Eligibility

A complete list of the qualified participants is found on the single sign on portal (SSO).

1. Login to your SSO account
2. Click on the resources tab on the left-hand side of the page
3. Click on current year files
4. Click on Landscape Customers

Eligible Products

All items listed in the NALP price file.

1. Login to your SSO account
2. Click on the resources tab on the left-hand side of the page
3. Click on current year files
4. Click on current year Landscape Price File.
    a. File will show the national account "C" sell to price
    b. File will show the Dealer credit price
    c. Please note the tabs at the bottom of the price file.

Purchase Options

Customers have two options available – Purchase from dealership or order from STIHL Inc.

1. Dealer Sales
    a. The National Account Customer purchases product directly from Dealer inventory. The dealer sells products according to the NALP, bills the National Account Customer directly, and gets paid for the sales at the NALP price while the customer receives their product immediately.
    b. Dealer submits a completed direct sale claim form with a copy of the invoice to receive the dealer credit price. Claims are sent to STIHL Inc. via email, to Dawn.Beauchemin@STIHL.us. The dealer credit price will be issued to the dealership as long as all requirements are met.

2. STIHL Inc. Sales

The National Account Customer places an order with STIHL Inc. and identifies their dealer choice. STIHL notifies STIHL and STIHL ships the product to the dealer. After receiving instructions, the dealer assembles and delivers the product before completing and returning the document to STIHL. When the process is completed, the dealer receives a service fee credit from STIHL.

Submission Requirements

1. Completed National Account Landscape Program claim form including list of part numbers and model description for all products
2. Copy of the sales invoice
3. Register all serial product prior to submission

National Account Direct Sale Claim Form

Dealer Name: _____ Dealer Number :_____

National Account Customer: _____

Date of Sale: _____ PO / Invoice Number: _____

Your STIHL branch will credit dealer the claim credit as specified on the National Accounts Landscaping Program pricing spreadsheet if the following terms are met:

- Dealer must charge the national account customer the exact current National Accounts Landscaping Program price as published by STIHL Inc.
- Dealer must furnish to their STIHL branch, a completed claim form with a copy of the invoice of sale to the customer showing the following:
  a. Pricing
  b. The model numbers and serial numbers of all units sold to the customer
- The product must be registered in eService in order to receive a credit
- Oil will only qualify if sold by the case.
- Upon receipt of the above documentation, your STIHL branch will issue the appropriate credit to your account. Please do not deduct the credit before the claim is filed or the credit is issued.

Northeast STIHL Marketing Program

The STIHL All-In Marketing Advantage Program offers a very robust, omni-channel marketing strategy with visibility across many different campaign channel types. In 2024, the STIHL advertising mix includes, but is not limited to, the following channel locations:

- Dealer website
- BOPUS-enabled online storefront
- National and regional TV
- National Print
- Over the Top (Streaming TV)
- Addressable TV
- YouTube Video Ads
- YouTube Discovery ads
- YouTube TV ads
- Rich Media Display ads
- Static Display ads
- Competitive Conquering / BOPUS display ads
- Dealer Regional Locator
- STIHL USA Dealer Locator
- Influencer Marketing
- Email Marketing
  - Sent to dealer customers on dealer's behalf
  - Multiple campaign sends all year long
  - Dealer tags with links driving traffic back to dealer site
  - Includes professional user campaigns (tree care, landscaping, construction)
- Search Engine Marketing
- Major League Baseball Social Media
- NEW! Pinterest
- NEW! Nextdoor

- ALL STIHL Dealers participate in the Marketing Advantage Program via Regional Marketing Fund (details below).
- Full-Line Dealers will be listed on STIHLdealers.com and STIHLUSA.com Dealer locators.
- Construction Dealers will be listed on STIHLconstruction.com and STIHLUSA.com Dealer locators

Program Funding or Regional Marketing Fund (RMF)

STIHL will add a percentage called the Regional Marketing Fund to each dealer invoice to cover a portion of the cost of the MAP program. The 3% will be added to all invoices with a cap of $9,000. For multi-location dealers, caps will be set at $6,000 for each additional store.

- For example, if a dealer has 4 locations, the RMF cap will be $27,000 ($9,000 + (3 x $6,000)).

There is a minimum annual RMF contribution of $1,500 per STIHL Dealer location.

- Dealers who purchase $50,000 or less annually from STIHL will be invoiced the difference between RMF paid and $1,500. This difference will be invoiced to the dealer in March of the following calendar year.

Construction and Rental Only dealers - The RMF percentage will be 3% with a cap of $5,000.

Co-Op Advertising NES does not offer a co-op advertising reimbursement. The exception to this is the STIHL Window Graphics Program. For all installed branch-approved STIHL-themed graphics, STIHL will cover half the cost of printing and installation, as well as assist with art design. Talk to your TM for complete information about this program.

STIHL Marketing Library - www.stihlmarketing.com

STIHL Incorporated maintains a website that contains downloadable artwork for dealers to utilize. Find product photography and marketing materials to use, or customize as your own. Marketing Materials include current promotions, brochures, catalogs, "why buys", radio scripts, digital display ads, and much more!

Login through Single Sign-On. Your I.D. is your STIHL dealer number and your password is your zip code. If your zip code begins with a zero (0), you may need to drop the zero and use the last four (4) digits only.

MAP+ OPTIONS & DETAILS

Take your marketing to another level with great new MAP+ options. If interested in any of these exciting options below, please fill out the form and email it to ania.harrell@stihl.us. **New for 2024:** Bundle and save! Purchase two MAP+ options and save $100!

MAP+ OPTION 1:

Organic Social – $300 ($25 per month)

Boost your social media presence with organic social. This option allows STIHL to automatically post social media content directly onto your dealership's Facebook and Instagram sites. For only $25 a month, seasonally relevant social content will be posted to your Meta pages several times a week. The dealer dashboard gives you insight into metrics, performance, and even allows you to deny the content you don't like and accept the content you do like. This option is included at no extra cost for price Level 1 dealers and Elite dealers.

MAP+ OPTION 2:

Billboard – $1,000

Next spring, catch the attention of your customers with a billboard displayed within ten miles of your dealership (subject to billboard inventory and availability).

MAP+ OPTION 3:

Geofenced Social Media Campaign – $500

Want a social media campaign that highlights your dealership to customers within a five-mile radius? Purchase Option 3 for only $500 to join an exclusive spring social media campaign for even greater boosted visibility in your area!

☐ **MAP+ Option 2:** Billboard – $1,000

☐ **MAP+ Option 3:** Geofenced Social Media Campaign - $500

STIHL EDGE Policy

STIHL Edge combines engaging in-store advertising with immersive digital sales content and uses targeted, timely messaging to educate, excite, and influence customers at a critical moment, increasing awareness and boosting sales.

Features and Benefits:

- Save Time - Allow customers to self-qualify the right tool. Easily compare pricing and specs between models. Streamline product registrations by allowing customers to input information while their purchase is being prepped.
- Capture Email Addresses - 70% email capture rate nationwide. Retargeting these emails makes the Marketing Advantage Program work even harder for you.
- Drive more Repeat Purchases - By using EDGE to register products and capture email addresses, repeat customers are more likely to come back to your store sooner.
- Promote Sales - Always broadcast the most up-to-date content from STIHL including current promotions and sales incentives.
- Empower your customer and employees - With how to videos, employees can become STIHL experts in no time.
- Feature custom store content - The majority of the STIHL Edge Reader Board time is for promotion of STIHL products but up to 40% of the rotation can be utilized for custom store content. With the content manager, you can easily upload and manage custom slides as long as they don't feature competitive brands or products.
- STIHL Edge is a required tool for all new STIHL dealers. It is billed on a quarterly basis in the second month of each quarter (February, May, August and November).

If you are an existing STIHL Dealer without the STIHL Edge system, contact your STIHL Territory Manager to sign up.

All custom dealer content should be non-competitive in nature. Competitive content includes, but is not limited to: Any battery, plug-in electric or gasoline powered brand/products, wet/dry vacuums, & gasoline or electric pressure washers.

STIHL and Spectrio reserve the right to remove any content at its sole discretion.

The STIHL Edge is a requirement for all new STIHL Dealers. If you wish to cancel the program after an initial 3 years, you may do so 60 days prior to the month of your sign up anniversary. If you do not cancel within the 60 days window prior to your anniversary date, the contract will reset for another 3 years.

STIHL Rewards Program

Rewards Participant Qualifications

- You must be employed by a STIHL Dealer participating in the NES Rewards Program.
- You must remain current with the NES Rewards (Custom) training track on STIHL iCADEMY®.

Note: Points will be declared immediately null and void upon a Rewards participant's dismissal from a participating dealer. No product will be awarded to a Rewards participant if they are not employed by a participating dealer. Points cannot be transferred from one account to another.

Earning Points

Rewards points are earned for selling qualifying STIHL units shown on the NES Rewards website. Sales associates are awarded 1 points per $1 in Battery products registered and 1 point per $2 for all other units. There is also an opportunity to earn 100 extra points by entering a customer's email address while registering the sale on the program. In order to receive these points, the email address entered must match what is entered under the STIHL eService registration for the same product. RZ and RZA units do not qualify for the rewards program.

Registering for Rewards Points

Products must be registered to qualify for the Rewards program. For your convenience they can be registered with one of two systems (please do not register a unit twice).

STIHL Edge– Once registered in STIHL Edge it will take the registration up to 3 days to move to STIHL eService. Then, the registration will move from eService to the Rewards Program.

STIHL eService– Once Registered here the product registration will move from STIHL eService to the Rewards Program within 2 days.

Note: The Sales Person ID, Model and Variant drop down boxes under the STIHL Rewards section of the registration form must ALL be filled in properly.

Rewards Points Tracking

You may view your account status at any time by clicking on 'Rewards Totals.' This amount will include all Rewards point including those pending verification and pending iCADEMY® training track completion status.

Rewards Points Redemption and Fulfillment

Participants must meet qualifications prior to redeeming Rewards points. Rewards points can be redeemed for STIHL units accessories or STIHL OUTFITTERS™ items. The process varies for each.

Redeeming points for STIHL units/accessories: Once your Rewards points have been credited to your account, simply go to the home page, locate the product you would like to redeem your points for and click the Buy Now button. Items purchased with Rewards points must be available from the dealership at which the participant earned the points, except for STIHL OUTFITTERS™ (see below)

Note: It is the Dealer's responsibility to make the redeemed product available to the participant. The product for which the points are redeemed will be credited back to the Dealer by NES. Products redeemed by the 23rd of the month, will be processed by the end of the month.

Redeeming points for STIHL OUTFITTERS™: STIHL OUTFITTERS™ promotional certificates are currently on hold as we transfer to a new OUTFITTERS vendor.

Rewards Points Limitations and Valid Dates

Each participant is limited to 30,000 redeemed points (equivalent to $400 MSRP) per calendar year. Rewards points will not carry over from year to year. The deadline to redeem points for each calendar year is November 30. Points for the next calendar year will start on December 1 and end November 30.

Rewards Account Status

NES Rewards accounts with no activity for a period of 90 days will be moved to inactive status and all points will be removed. An email notification will be sent after 75 days of inactivity. Once the account has been moved to an inactive status, an account administrator must be contacted in order to turn the sales associate back to an active status. When an account becomes inactive, all rewards points will be lost and Northeast STIHL will not reinstate them.

Key Rewards Details

- One points per $1 of MSRP for battery unit product registrations and one point per $2 of MSRP for all other units.
- Extra 100 points for entering the customer's email address on the STIHL Edge or eService registrations.
- Verification of points may take up to 90 days.
- 30,000 points cap per calendar year.
- DEADLINE TO REDEEM POINTS FOR THIS CALENDAR YEAR IS NOVEMBER 30- no exceptions.

For any issues with your account please email nesrewards@stihl.us

BGA 45

AI Series/Series 4513

AI

Weight w/Integrated Battery: 2.0 kg (4.4 lbs.)
Charge Time: 300 minutes (5 hours)
Run Time: Up to 10 minutes
Blowing Force*: 5 Newtons
Max Air Velocity: 44 m/sec. (98 mph)
Air Volume at Nozzle: 420m³/h (247 cfm)

Description	Part Number	SRP
BGA 45 includes 18 Volt Integrated Lithium-Ion Battery. Charger included with unit.	4513 011 5902 US	$139.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2.

BGA 57

AK Series/ Series 4523

AK

Weight w/o Battery: 2.3 kg (5.1 lbs.)
Weight w/ recommended AK 20: 3.5 kg (7.8 lbs.)
Run Time w/ recommended AK 20: (144 Wh) Up to 22 minutes
Blowing Force*: 9 Newtons
Max Air Velocity: 55 m/sec. (123 mph)
Air Volume at Nozzle: 620 m³/h (365 cfm)

Recommended Battery: AK 20
Recommended Charger: AL 101

Description	Part Number	SRP
BGA 57 Unit Only	4523 011 5961 US	$159.99
BGA 57 set w/ AK 20 Battery and AL 101 Charger	4523 011 5991 US	$199.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2.

BGA 60

AK Series/ Series BA04

AK

Weight w/o Battery: 2.27 kg (5.0 lbs.)
Weight w/ recommended AK 30: 3.58 kg (7.9 lbs.)
Run Time w/ recommended AK 30: Up to 16 minutes
Blowing Force*: 13 Newtons
Max Air Velocity: 69 m/sec. (154 mph)
Air Volume at Nozzle: 780 m³/h (459 cfm)

Recommended Battery: AK 30
Recommended Charger: AL 101

Description	Part Number	SRP
BGA 60 Unit Only	BA04 011 5901 US	$199.99
BGA 60 set w/ AK 30 battery & AL 101 charger	BA04 011 5941 US	$299.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

BGA 86

AP Series/ BA02

Weight w/o Battery: 2.8 kg (6.2 lbs.)
Weight w/ recommended AP 300: 4.5 kg (10 lbs.)
Run Time w/ recommended AP 300: Up to 21 minutes
Blowing Force*: 15 Newtons
Max Air Velocity: 69 m/sec. (154 mph)
Air Volume at Nozzle: 780 m³/h (459 cfm)

Recommended Battery: AP 300
Recommended Charger: AL 101/ AL 300/ AL 500

Description	Part Number	SRP
BGA 86 Unit Only	BA02 011 5901 US	$279.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2.

BGA 100

AP Series/ Series 4866

Weight w/o Battery: 2.5 kg (5.5 lbs.)
Run Time w/ recommended AR 3000 L: Up to 510 minutes
Blowing Force*: 17 Newtons on boost mode
Max Air Velocity: 75 m/sec. (168 mph)
Air Volume at Nozzle: 840 m³/h (494 cfm)
Sound Pressure Rating: 56 dB(A)

Recommended Battery: AR 3000 L
Recommended Charger: AL 301/ AL 500

Description	Part Number	SRP
BGA 100 Unit Only	4866 011 5901 US	$409.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2.

BGA 200

AP Series/ Series BA01

Weight w/o Battery: 3.2 kg (7.1 lbs.)
Run Time w/ AR 3000 L: Up to 500 Minutes
Blowing Force*: 21 Newtons on boost mode
Max Air Velocity: 84 m/sec. (188 mph)
Air Volume at Nozzle: 940 m³/h (553 cfm)
Sound Pressure Rating: 59 dB(A)

Requires either an AR backpack battery or special accessory to operate with AP battery.

Recommended Battery: AR 3000 L
Recommended Charger: AL 301/ AL 500

Description	Part Number	SRP
BGA 200 Unit Only	BA01 011 5901 US	$479.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

BGA 300.0

AP Series/ Series BA03

Weight w/o Battery: 7.48 kg (16.5 lbs.)
Run Time w/ AR 3000 L: Up to 140 Minutes
Blowing Force*: 26 Newtons on boost mode
Max Air Velocity: 85.8 m/sec. (192 mph)
Air Volume at Nozzle: 970 m³/h (571 cfm)
Sound Pressure Rating: 59 dB(A)

Requires either an AR backpack to operate.

Recommended Battery: AR 3000 L
Recommended Charger: AL 301-4/ AL 500

Description	Part Number	SRP
BGA 300 Unit Only	BA03 011 5901 US	$699.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2.

SHA 56

AK Series / Series SA02

Weight w/o Battery (Shredder mode): 4.2 kg (9.3 lbs.), Weight w/ recommended AK 20 battery (Shredder mode): 5.4 kg (12.0 lbs.), Run time w/ recommended AK 20 battery (Shredder mode): Up to 25 minutes
Blowing Force*: 8 N
Max Air Velocity:: 56 m/s (125 MPH)
Air Volume at Nozzle:: 560 m3/h (328 CFM)
Sound Pressure Rating:: 62 dB(A)
Bag Capacity:: 1.41 cubic feet

Recommended Battery: AK 20
Recommended Charger: AL 101

Description	Part Number	SRP
SHA 56 Unit Only	SA02 011 7101 US	$259.99
SHA 56 kit with AK 20 & AL 101	SA02 200 0011	$419.99

KMA 130 R

AP Series/ Series 4867

Weight w/o Battery: 3.2 kg (7.1 lbs.)

Run Time: Varies based on attachment and battery used

Compatible with all current KM attachments (excludes FSB curved shaft trimmer)

Harness Kit (0000 007 1045) Required when operating an FS-KM Kombi tool mounted w/ a metal cutting attachment

Requires either an AR Backpack Battery or special accessories to operate w/ AP battery

Recommended Battery: AR 3000 L
Recommended Charger: AL 301/ AL 500

Description	Part Number	SRP
KMA 130 R unit only	4867 011 6821 US	$399.99

KMA 135 R

AP Series/ Series FA02

Weight w/o Battery: 3.4 kg (7.5 lbs.)

Weight w/ recommended AP 300 S battery: 5.2 kg (11.5 lbs.)

Run Time: Varies based on attachment and battery used

Compatible with all current KM attachments (excludes FSB curved shaft trimmer).

Recommended Battery: AP 300 S
Recommended Charger: AL 101/ AL 301/ AL 500

Description	Part Number	SRP
KMA 135 R unit only	FA02 011 6801 US	$349.99

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

SGA 85

AP Series/ Series 4854

Weight w/o Battery: 6.2 kg (13.7 lbs.)
Weight w/ recommended AP 100 battery: 7.1 kg (15.5 lbs.)
Run Time w/ recommended AP 100 battery: Up to 510 minutes
Tank Capacity: 17.0 L (4.5 gals.)
Working Pressure: 14.5 – 87 PSI

Recommended Battery: AP 100
Recommended Charger: AL 301

Description	Part Number	SRP
Battery powered backpack sprayer- unit only	4854 011 7001 US	$399.99

BATTERY REMINDER *Check Battery Inventory*

- Always store batteries as recommended in the instruction manual
- STIHL batteries are between 25% - 30% charged when shipped from the factory
- Over time, even properly stored batteries will slowly experience energy loss
- New, unused batteries that remain in dealer inventory for 5 years should be charged to avoid battery damage
- Allowing batteries to discharge to zero will cause permanent damage, preventing them from being recharged

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual before using your saw. STIHL has developed a color code system using green and yellow to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B 175.1. Your instruction manual contains safe operating procedures and advantages of using the STIHL Quickstop® chain brake, STIHL reduced kickback bars and STIHL low kickback chains. STIHL recommends the use of reduced kickback bars and low kickback chains on all STIHL chain saws.

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual before using your saw. STIHL has developed a color code system using green and yellow to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B 175.1. Your instruction manual contains safe operating procedures and advantages of using the STIHL Quickstop® chain brake, STIHL reduced kickback bars and STIHL low kickback chains. STIHL recommends the use of reduced kickback bars and low kickback chains on all STIHL chain saws.

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual before using your saw. STIHL has developed a color code system using green and yellow to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B 175.1. Your instruction manual contains safe operating procedures and advantages of using the STIHL Quickstop® chain brake, STIHL reduced kickback bars and STIHL low kickback chains. STIHL recommends the use of reduced kickback bars and low kickback chains on all STIHL chain saws.

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual before using your saw. STIHL has developed a color code system using green and yellow to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B 175.1. Your instruction manual contains safe operating procedures and advantages of using the STIHL Quickstop® chain brake, STIHL reduced kickback bars and STIHL low kickback chains. STIHL recommends the use of reduced kickback bars and low kickback chains on all STIHL chain saws.

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual before using your saw. STIHL has developed a color code system using green and yellow to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B 175.1. Your instruction manual contains safe operating procedures and advantages of using the STIHL Quickstop® chain brake, STIHL reduced kickback bars and STIHL low kickback chains. STIHL recommends the use of reduced kickback bars and low kickback chains on all STIHL chain saws.

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual before using your saw. STIHL has developed a color code system using green and yellow to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B 175.1. Your instruction manual contains safe operating procedures and advantages of using the STIHL Quickstop® chain brake, STIHL reduced kickback bars and STIHL low kickback chains. STIHL recommends the use of reduced kickback bars and low kickback chains on all STIHL chain saws.

- **Rock Boss chain has a 25% margin for all Dealers.**
- **Rock Boss bars are included in normal bar brackets.**
- **New Dealers start at chain bracket 4 and bar bracket 1.**

STIHL RAPID™ HEXA CHAIN

- Features v-shaped cutting edge for longer edge retention and easier hand filing
- Narrow kerf top plate cuts 10% faster compared to STIHL RAPID™ Super (RS) saw chain
- Saw chain stays sharper for longer*
- 6-sided, hexagon shaped file designed specficially to maintain the high-performance HEXA cutter shape.
- Hexagon shaped file allows for easier sharpening with a file by hand with better results*

*In comparison with STIHL RAPID™ Super (RS) chain.

WARNING! Improper use of any brushcutter/trimmer can cause serious or fatal injury. Read, understand and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used only on FS brushcutters that have a bicycle handle with double shoulder harness and not on FS brushcutters with a "J" handle or loop handle. Other rigid blades may be used on FS brushcutters having a bicycle, a "J" handle, or a loop handle equipped with a barrier bar. To reduce the risk of eye injury, always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.

31.4 cc (1.9 cu. in.), 1.05 kW (1.4 bhp), 6.2 kg (13.7 lbs.)

Fuel Capacity: 710 cc (24.0 oz.)
Blade Length: 20.3 cm (8.0 in.)
Arbor Size: 25.4 mm (1.0 in.)
Gear Ratio and Blade Speed: 1:2.09 4,800 rpm

Description	Part Number	SRP
Straight, Solid Drive Shaft (Includes protective glasses)	4180 011 1915 US	$539.99
Service Kit for FC 96	4180 007 1042	$27.99

WARNING! Improper use of any brushcutter/trimmer can cause serious or fatal injury. Read, understand and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used only on FS brushcutters that have a bicycle handle with double shoulder harness and not on FS brushcutters with a "J" handle or loop handle. Other rigid blades may be used on FS brushcutters having a bicycle, a "J" handle, or a loop handle equipped with a barrier bar. To reduce the risk of eye injury, always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.

FB 131

FORESTRY DOUBLE SHOULDER HARNESS

Description	Part Number	Order Index 1	SRP
Forestry Harness - Size Large*	4147 710 9003	D55C49	$73.99

*Double shoulder Harness is mandatory when using a circular saw blade.

UNIVERSAL DOUBLE SHOULDER HARNESS

Description	Part Number	Order Index 1	SRP
New design for comfortable, extensive use. Lightweight - 1.6 lbs.			
Size Large*	4147 710 9002	D55C49	$73.99
Size XXL Large*	4147 710 9004	D65C24	$86.99

*Double shoulder Harness is mandatory when using a circular saw blade. Chest strap 0000 790 7700 can be used with the Deluxe Universal Double Harness.

WARNING! Improper use of any brushcutter/trimmer can cause serious or fatal injury. Read, understand and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used only on FS brushcutters that have a bicycle handle with double shoulder harness and not on FS brushcutters with a "J" handle or loop handle. Other rigid blades may be used on FS brushcutters having a bicycle, a "J" handle, or a loop handle equipped with a barrier bar. To reduce the risk of eye injury, always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.

Sound Pressure Rating**: 70 dB(A)

Description	Part Number	SRP
Easy2Start™ Version of the BG 86	4241 011 1764 US	$299.99

SH 56 C-E

27.2 cc (1.66 cu. in.), 0.7 kW (0.9 bhp), 5.2 kg (11.5 lbs.- dry weight)
Fuel Capacity: 540 cc (18.3 oz.)
Blowing Force*: 13 Newtons
Max Air Velocity: 71 m/sec. (159 mph)
Air Volume at Nozzle**: 700 m3/h (412 cfm)
Sound Pressure Rating**: 70 dB(A)

Description	Part Number	SRP
Includes: Vacuum Bag; Suction Tube; Round Nozzle	4241 011 0934 US	$239.99
Service Kit for SH 56 C-E	4241 007 1800	$22.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2. **As measured per ANSI B175.2. All specifications provided by Andreas STIHL AG, as of April 2016
WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

SH 86 C-E

27.2 cc (1.66 cu. in.), 0.8 kW (1.07 bhp), 5.6 kg (12.3 lbs.- dry weight)
Fuel Capacity: 440 cc (14.9 oz.)
Blowing Force*: 15 Newtons
Max Air Velocity: 76 m/sec. (170 mph)
Air Volume at Nozzle**: 755 m3/h (444 cfm)
Sound Pressure Rating**: 70 dB(A)

Description	Part Number	SRP
Includes: Vacuum Bag, Suction Tube, Flat Nozzle and Round Nozzle	4241 011 0939 US	$339.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2. **As measured per ANSI B175.2. All specifications provided by Andreas STIHL AG, as of April 2016
WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

SR 200

Series 4241

27.2 cc (1.66 cu. in.), 0.8 kW (1.07 bhp), 8.5 kg (18.7 lbs.)
Fuel Capacity: 1,079 cc (36.5 oz.)
Container Capacity: 10.0 L (2.1 gals.)
Air Velocity: 81 m/sec. (181 mph)
Air Volume: With tubes: 580 m3/h (391 cfm)
Spray Range: (Maximum): Horz .: 9 m (29.5 ft.), Vert.: 5.5 m (18.0 ft.)

Description	Part Number	SRP
2.1 Gallon Tank Liquid Only Unit	4241 011 2602 US	$459.99

The pressure pump kit is recommended for applications in which the spray tube is held at an upward angle of more than 30 degrees in order to maintain a consistent discharge rate.

SR 430

63.3 cc (3.86 cu. in.), 2.9 kW (3.9 bhp), 12.4 kg (27.3 lbs.)
Fuel Capacity: 1700 cc (57.5 oz.)
Container Capacity: 14.0 L (3.7 gals.)
Air Velocity: 90 m/sec. (201 mph)
Air Volume: 920 m3/h (542 cfm)
Spray Range: (Maximum): Horz.: 14.5 m (48.0 ft.), Vert.: 13.0 m (43.0 ft.)

Description	Part Number	SRP
3.7 Gallon Tank Liquid Only Unit Includes: Pressure Pump	4244 011 2601 US	$699.99

SR 450

63.3 cc (3.86 cu. in.), 2.9 kW (3.9 bhp), 12.8 kg (28.2 lbs.- dry weight)
Fuel Capacity: 1700 cc (57.5 oz.)
Container Capacity: 14.0 L (3.7 gals.)
Air Velocity: 90 m/sec. (201 mph)
Air Volume: With tubes: 920 m3/h (542 cfm)
Spray Range: (Maximum): Horz.: 14.5 m (48.0 ft.), Vert.: 13.0 m (43.0 ft.)

Description	Part Number	SRP
3.7 Gallon Tank; Toolless conversion from liquid to granular mode by rotating tank 180 degrees	4244 011 2643 US	$749.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2. **As measured per ANSI B175.2. All specifications provided by Andreas STIHL AG, as of April 2016
WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

Manual Hand Sprayer- 1.32 Gallon Tank	4255 019 4931	D52C49	$69.99

SG 51 SERIES 4255 PROFESSIONAL

Description	Part Number	Order Index 1	SRP
Pressurized Fluid Reservoir Separate from 3.2 Gallon Tank with adjustable brass nozzle	4255 019 4951	D97C49	$129.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2. **As measured per ANSI B175.2. All specifications provided by Andreas STIHL AG, as of April 2016
WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

SG 71 SERIES 4255

Description	Part Number	Order Index 1	SRP
Pressurized Fluid Reservoir Separate from 4.75 Gallon Tank with adjustable brass nozzle	4255 019 4971	D108C74	$144.99

SG 20 SPRAYING BELL

Description	Part Number	Order Index 1	SRP
Deflector Screen	4247 500 5801	D28C59	$43.99

NOTE: Includes: Spray Bell, 1700 cc/min and 535 cc/min nozzles

SG 20 TELESCOPING WAND

Description	Part Number	Order Index 1	SRP
Telescopic Lance	4247 500 2100	D39C97	$61.49

SG 20 COMPLETE WAND ASSEMBLY

Description	Part Number	Order Index 1	SRP
Wand Assembly	4247 500 7600	D58C49	$89.99

NOTE: Includes: Hose, Hose Clamp, Trigger Valve, Wand and Nozzle Kit

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2. **As measured per ANSI B175.2. All specifications provided by Andreas STIHL AG, as of April 2016
WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

SG 20 CONTROL VALVE

Color	Rated Pressure	Part Number	Order Index 1	SRP
Yellow	15 psi	4247 500 7400	D41C27	$63.49
Red	21 psi	4247 500 7401	D41C27	$63.49
Blue	29 psi	4247 500 7402	D41C27	$63.49

Note: Control valve maintains constant spray pressure and closes to prevent dripping when pressure falls below rated value.

SR 200 ACCESSORIES

Description	Part Number	Order Index 1	SRP
SR 200 Pressure Pump Kit For providing constant discharge rate at upward angles Set of ULV Nozzles included	4241 007 1006	D101C99	$135.99
Set of ULV Nozzles- SR 200 For fine control of low volume liquid flow	4241 007 1009	D11C99	$15.99

SR 430/450 ACCESSORIES

Description	Part Number	Order Index 1	SRP
SR 450 Pressure Pump Kit For providing constant discharge rate at upward spray angles Set of ULV Nozzles included	4244 007 1004	D101C99	$135.99
Set of ULV Nozzles For fine control of low volume liquid flow	4244 007 1022	D5C99	$7.99
Tube Extension Kit For extra reach into high trees or low bushes	4244 770 0300	D8C99	$11.99

*Newton is the force needed to accelerate 1 kg of mass at the rate of 1 m/sec2. **As measured per ANSI B175.2. All specifications provided by Andreas STIHL AG, as of April 2016
WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

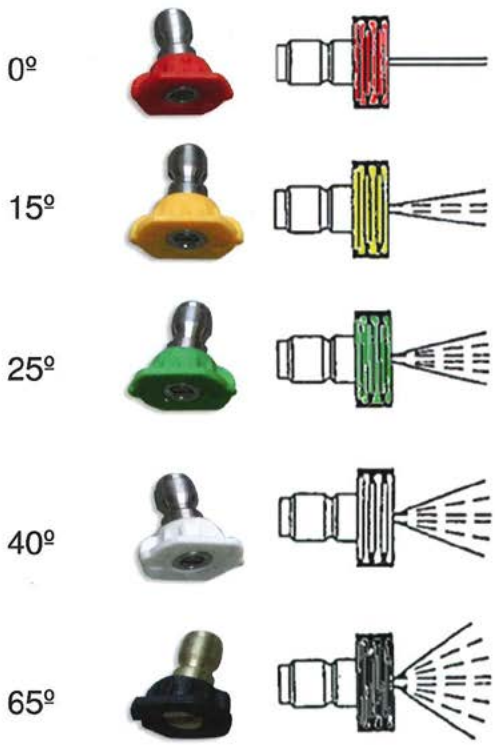
NOZZLE USES



RED = 0-degree nozzle. This is a blasting nozzle that delivers a very concentrated stream of water. Take care to avoid damaging wood or fragile surfaces. **Uses**: Removing weeds from sidewalk cracks, stubborn stains from concrete, masonry, aluminum and steel, caked-on mud from equipment and cleaning lawn mower undersides.

YELLOW = 15-degree nozzle. This is a chiseling nozzle. The spray pattern on this nozzle should be directed at a 45-degree angle to the surface and used like a scraper to remove paint, grease and dirt. **Uses:** Removing peeling paint and mildew stains to prepare surfaces for re-finishing, cleaning gutters and downspouts.

GREEN = 25-degree nozzle. This is a flushing nozzle best suited for removing dirt, mud and grime from surfaces. **Uses**: Wet-sweeping leaves from walks, cleaning stable floors, washing swimming pool bottoms and degreasing engines

WHITE = 40-degree nozzle. This is a washing nozzle. The wide spray pattern on this nozzle disperses the water pressure over a large area and is recommended for rinsing and moderate washing. **Uses**: Washing down aluminum siding, cleaning windows, washing vehicles, spraying sidewalks, driveways and patios, and cleaning roofs.

BLACK = 65-degree nozzle. This is a detergent nozzle. This nozzle is used under low pressure to apply a detergent mixture to surfaces. The large orifice and widespray pattern thoroughly applies detergent to the cleaning area. **Uses**: Applying detergents to vehicles, siding, patios, etc.

Applications

● Approved ○ Not Approved

*Compared to other STIHL wheels with a rating of 1-6.
**Approved with restrictions – not for permanent use in this material.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

STIHL Cutquik® WHEEL SELECTION WARNING

Only STIHL-branded composite and diamond wheels are recommended. Although certain other wheels may fit and be usable with the STIHL powerhead, their use may, in fact, be extremely dangerous. Wheels that are not STIHL-branded may be more likely to shatter or break or cause other problems, such as wheel wobble and/or increased reactive forces. Use only wheels with approved RPM ratings for your cut-off machine. Consult the instruction manual for your STIHL cut-off machine or current STIHL Cut-Off Machine Safety Manual for more details.

1

2

Photos #1 and #2 show examples of recommended STIHL diamond abrasive wheels that grind material. Note that the cooling slots and segments on such diamond wheels are **NOT** cutting teeth.

WARNING - Never use a carbide-tipped, wood-cutting or circular saw blade on STIHL Cutquik® cut-off machines. Such blades can greatly increase the risk of loss of control and cause severe or fatal injury from reactive forces, including kickback, blade contact or thrown objects/carbide tips.

Photos #3, #4 and #5 are examples of carbide-tipped, rescue or circular saw blades which are **NOT AUTHORIZED** for use on STIHL cut-off machines.

WARNING - Diamond wheels with abrasive material on the sides are not authorized by STIHL. Such abrasive material may increase reactive forces in a pinch situation and the risk of serious or fatal injury.

6 7 8

Photos #6, #7 and #8 are examples of diamond wheels with abrasive material on the side of the wheels. These types of diamond wheels are **NOT AUTHORIZED** for use on STIHL cut-off machines.

WARNING - Some diamond wheels that are not STIHL-branded are prone to wobble during use. This condition may be caused by poor quality steel used in the core, lack or loss of tensioning, or other design or manufacturing problems. Wheel wobble can lead to binding, loss of control and/or kickback. To reduce the risk of serious or fatal injury, never use a wheel that wobbles or has previously wobbled.

IMPORTANT INFORMATION FOR BOOTS CONTAINING CUT-RETARDANT PADS

WARNING!

These boots contain pads of cut and puncture-retardant material designed to reduce the risk or severity of injury to the parts of the foot covered by the pads in the event of contact with a rotating chain. In some contacts, the pads may stop the chain. In other contacts, the pads will resist the cutting process only for a fraction of a second. The actual degree of protection afforded will vary with the speed of the chain at the time of contact, the power of the saw and similar factors.

Severe personal injury can result from contact with the chain of your chain saw despite use of these boots. These boots are not intended to be a substitute for good safety procedures in the use of your chain saw. If the protective pads of these boots are damaged or cut, the cut-retardant qualities of the pads may be eliminated. Once the protective pads are cut or damaged, these boots should no longer be used as protective clothing.

WARNING!

Improper use of any chain saw can cause serious or fatal injury. Read and follow all safety precautions in current Instruction or Safety Manual. Your saw may be capable of severe kickback. To reduce the risk of kickback injury, use green labeled STIHL reduced kickback bar and low kickback chain and STIHL Quickstop® chain brake. Avoid contact of bar tip with any object. This can cause the bar to kick suddenly up and back which may result in serious or fatal injury.

Always use two hands to operate the saw.

WARNING!

Kickback may occur when the moving saw chain near the upper quadrant of the bar nose contacts a solid object or is pinched.

The reaction of the cutting force of the chain causes a rotational force on the chain saw in the direction opposite to the chain movement. This may fling the bar up and back in an uncontrolled arc mainly in the plane of the bar. Under some cutting circumstances the bar moves toward the operator, who may suffer severe or fatal injury.

Kickback may occur when the nose of the guide bar is pinched unexpectedly, unintentionally contacts solid material in the wood or is incorrectly used to begin a plunge or boring cut.

Protective Clothing

IMPORTANT INFORMATION FOR PROTECTIVE CLOTHING GARMENTS CONTAINING CUT-RETARDANT PADS

Leg protective garments have been certified to comply with the ASTM Standard for Leg Protection for Chain Saw Operators.

WARNING!

No one can guarantee that an injury will not occur or will be less severe because an operator wears this protective garment. It is not intended to substitute for good safety procedures in chain saw use. This garment is intended to, under limited conditions, assist the wearer in reducing the severity of injury from a running, gasoline powered chain saw which accidentally contacts the saw operator's leg. Even with this garment, severe personal injury can result from contact with the rotating chain. This garment contains pads of cut retardant material designed to reduce the risk or severity of injury to the body parts covered by the pads. In some contacts, the protective pads in this garment may resist the cutting process only for a fraction of a second. The actual degree of protection afforded will vary with the speed of the chain, the time and angle of contact, the power and torque of the saw, the design of the chain saw sprocket and similar factors. Follow all manufacturer's instructions with regard to the use and care of this garment. Failure to follow the manufacturer's instructions may result in the garment no longer having the capability of providing the minimum protection required by the ASTM standard.

WARNING FOR CORDED ELECTRIC AND BATTERY CHAIN SAW USERS!

The fibers in STIHL leg protective may not stop the sprocket on most battery and corded electric chain saws because of their constant high torque. However, STIHL recommends that leg protection be worn when operating these types of chain saws.

WARNING!

All buckles on this garment must be securely fastened. Damaged or broken buckles should be replaced immediately. Keep protective pads in garments properly positioned.

If this garment is CUT, DAMAGED OR REPAIRED it should not be used as protective clothing. The cut retardant pads in this garment are designed to rip apart when they come in contact with the moving chain and to clog the sprocket, thereby stopping the chain in some circumstances. Once out, damaged or repaired, the pads may no longer maintain this capability, and this garment may no longer be capable of providing the minimum protection required by the American Pulpwood Association, Inc. Standard.

The MATERIALS used in this garment ARE FLAMMABLE. This garment should not be used around open flames or other sources of ignition. It should be kept clean and free of volatile or combustible substances. If it becomes contaminated or soiled with gasoline, oil or other combustible substances, its use should be discontinued until laundered in accordance with the manufacturer's instructions.

Follow the manufacturer's WASHING INSTRUCTIONS carefully. Improper care may destroy the cut retardant material in this garment. If washed improperly this garment should no longer be used as protective clothing.

Everyone who operates a chain saw should wear all recommended Personal Protective Equipment, however, OSHA Reg. 1910.266 requires all employees using a chain saw to be in compliance. This means that anyone operating a chain saw while on the job must be wearing all of the PPE listed in OSHA 1910.266.

According to the U.S. Consumer Products Safety Commission, in 2010 there were an estimated 27,170 chain saw related accidents. The frequency and location of these accidents is illustrated in the chart shown.

OSHA Reg. 1910.266 requires any individual operating a chain saw while at work to wear the following items of Personal Protective Equipment (PPE):

- Head Protection
- Hearing Protection
- Face Protection
- Eye Protection
- Gloves
- Chain Saw Protective Leg Device
- Chain Saw Protective Boots

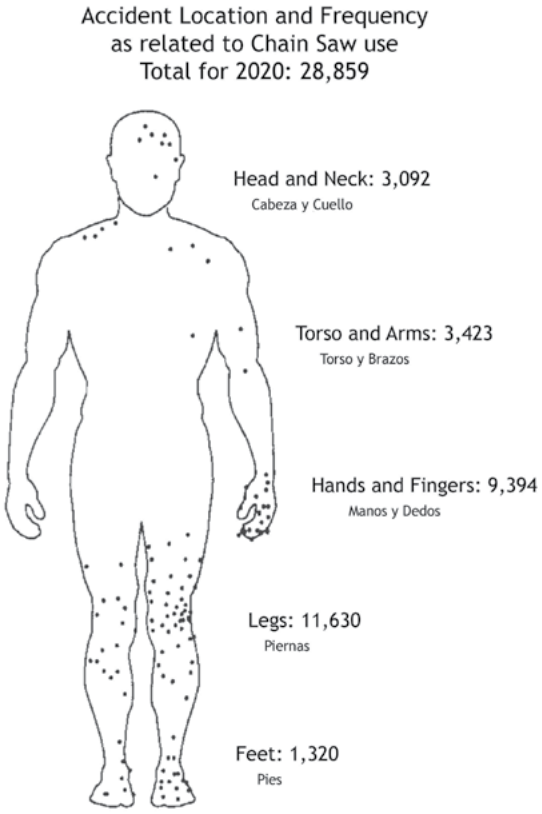

Chart developed by Grand Forest with 2020 statistics provided by the US Consumer Product Safety Commission

Table desarrollada por Grand Forest Inc. según las estadísticas de 2020 de la Comisión de Seguridad de Productos de Consumo de EE.UU.

How Does STIHL® ProMark™ Chain Saw Leg Protection Work?

All STIHL Chain Saw Leg Protective Apparel uses several internal layers of a patented saw jamming material called Avertic® Pro by Engtex®. Avertic® Pro by Engtex® is a fabric designed specifically for use in chain saw protective apparel. The multiple layers of Avertic® Pro by Engtex® are designed to break away from the protective apparel when snagged by a rotating saw chain and get pulled in to the sprocket of the chain saw, clogging it and stalling the saw, all within a fraction of a second.

Protective apparel containing Avertic® Pro by Engtex® have a number of unique and distinctive advantages over other cut-retardant garments:

- Avertic® Pro by Engtex® is a fiber that can be machine washed and dried before going in to service and whenever soiled during use.
- Avertic® Pro by Engtex® is an "open" weave or "breathable" material.
- Avertic® Pro by Engtex® was invented specifically to be a chain saw protective material.

All STIHL leg protection is classified by UL using ASTM Test Method F1414 in accordance with ASTM Standard F1897. All STIHL leg and foot protection meets current ASTM Standard and OSHA Reg. 1910.266.

LISTA MAKING WORKSPACE WORK® www.listaintl.com

Mention you are a STIHL dealer and receive:
25% Off Manufactured To Order Items
30% Off Express Quick Ship Items

Feature: Unique drawer construction - Unique Z-bar supports and frc and rear panels are welded to the drawer bottom.
Benefit: Full dimensional stability, integrity of construction, maximum support

Feature: Anchoring - Cabinets can be anchored to the floor or bolted together side to side.
Benefit: Secure placement without shifting

Feature: 100% full extension drawers - Continuous smooth extension even with a full 440 lb. load.
Benefit: Easy access and full use of every inch of drawer space

Feature: PrevenTip® interlock system (standard on all cabinets) Our patented (U.S. Pat. 5,605,388) drawer locking system – when one drawer is extended, all other drawers are locked in place to prevent accidental tipping.
Benefit: Added safety and maximum reliability and security

Feature: Seven different full sidewall heights - Maximum use of cubic volume.
Benefit: No wasted space

Feature: Drawer dividers - Angled tops allow easy identification of contents and can even accommodate most bar codes. Can also be fastened to drawer bottom.
Benefit: Fast, accurate identification of compartment content

Feature: Customized drawer compartments - Drawers have partitioning slots on all four sides and can be subdivided with a wide variety of drawer accessories for maximum partitioning flexibility.
Benefit: Better organization, faster retrieval

Feature: Flush handles - When drawers are closed, handles are flush with housing so nothing protrudes.
Benefit: Improved safety and appearance

Feature: Label holders - Labels run full width of handle for fast, easy identification of drawer contents. Labels are built into drawer pulls.
Benefit: Faster retrieval and easier inventory control

Feature: Variety of bases - Different bases allow for easy stacking or moving with a fork or pallet truck, even when fully loaded.
Benefit: Flexibility and ease of relocation or rearrangement

Please contact your Territory Manager for more details.

PRODUCT LIABILITY

This booklet provides guidelines concerning your duties as a STIHL distributor ("Distributor") or dealer/retailer ("Retailer") with respect to STIHL customers. Always follow these guidelines in dealing with every STIHL customer and if you have any questions concerning them, contact your Distributor or STIHL Incorporated ("STIHL").

This booklet also provides guidelines for reporting accidents that come to your attention involving STIHL products.

Product liability describes the area of law involving the liability of manufacturers and sellers of products to persons who are injured or whose property is damaged by a "defective" product. "Sellers" within the chain of distribution include the manufacturer, importer, distributor and retailer. A "defective" product claim may arise from the manner in which the product is designed, how it is manufactured, the warnings and instructions which accompany the product or the manner in which it is marketed.

STIHL stands behind its products and its Retailers/Distributors who comply with these guidelines. If a product liability claim of bodily injury or accidental damage to tangible property is made against you, based upon allegations of a defect in a STIHL product that existed at the time the product left STIHL, or an inadequacy in the literature and warnings prepared by STIHL for distribution with the product, STIHL will generally take over the defense of any resulting lawsuit and pay any judgment that may be rendered against you.

However, neither STIHL nor any other manufacturer can assume the defense or take on an obligation to indemnify under all circumstances. In the following circumstances, STIHL cannot take over your defense or pay any judgment that may be rendered against you:

1. if there has been any express warranty not authorized by STIHL;
2. if there has been a distribution or sale for a purpose not authorized by STIHL;
3. if there has been a distribution or sale in a manner not authorized by STIHL;
4. if injuries have been caused by attachments to a STIHL product not authorized by STIHL;
5. if the Distributor/Retailer has altered or modified the product from its original design;
6. if the Distributor/Retailer has failed to maintain the product in merchantable condition;
7. if the Distributor/Retailer has improperly performed any inspection, adjustments, tests, servicing or repairs on the product;
8. if the Distributor/Retailer has failed to make such inspection, adjustments, tests or servicing as the Distributor/Retailer has agreed to make or normally undertakes in the usual course of business, in connection with the sale of the product;
9. if the STIHL product, after distribution or sale by STIHL, has been labeled, re-labeled or used with the Distributor's/Retailer's knowledge for any purpose other than its intended purpose;
10. if the Distributor/Retailer has failed to follow STIHL's instructions regarding product registration, labeling, safety instructions, delivery of safety literature and information to customers, or compliance with industry standards or governmental regulations, and the claimant's allegations involve such a failure;
11. if the injury or damage has arisen from any other negligent or wrongful act of the Distributor/Retailer or its employees;
12. if the Distributor/Retailer takes a position in the case adverse to the interests of STIHL;
13. if the Distributor/Retailer fails to notify STIHL promptly of any such claim; or
14. if the Distributor/Retailer sells STIHL products that were not designed, manufactured and labeled for sale in the United States.

Before it can assume your defense, STIHL will need to conduct an investigation and determine whether one or more of these exclusions applies. Because relevant facts may not be immediately apparent, and because it may not be possible to resolve questions about such facts immediately, STIHL retains the right – even after the assumption of your defense – to tender that defense back to you. STIHL's assumption of your defense does not constitute a waiver of STIHL's right to contest its obligation to pay a judgment rendered against you on grounds that one or more of the exceptions set out above applies. In appropriate circumstances, STIHL may seek contribution or indemnity from you.

Because neither STIHL nor any manufacturer can defend you in all circumstances, STIHL encourages you to carry your own insurance for these and other cases that may not be covered by STIHL's Product Liability Guidelines. Compliance with these Guidelines may make insurance more affordable.

STIHL can only stand behind its own products. While STIHL bears certain responsibilities for products it manufactures and sells, it bears no similar responsibilities, and has no intention of assuming such responsibilities, for products manufactured and sold by others.

We, therefore, encourage you to use only genuine STIHL batteries, chargers, replacement parts (e.g., sprockets, internal engine components,

etc.) and approved attachments, including but not limited to, guide bars, saw chain, cut-off wheels and other cutting attachments.

We believe that STIHL's continued protection of its authorized Distributors/Retailers is a significant step in helping reduce your cost of doing business.

YOU AND THE STIHL CUSTOMER

As a STIHL Retailer, you are the only part of the STIHL distribution system to have direct contact with the STIHL customer. It is important that a customer knows and respects the equipment. Power tools, if improperly used or maintained, can be dangerous. It is your responsibility to advise customers concerning product safety, including proper accessories and replacement parts. With respect to chain saws, for instance, you should advise the customer about our reduced kickback bar, low kickback chain and STIHL Quickstop® chain brake.

- Make sure that the customer receives the Instruction Manual, as well as any other literature and warnings which accompanied the product.
- Make sure that the purchasers of used STIHL products and customers who bring in STIHL equipment for repair have applicable warning labels and Safety Manuals.
- Always properly assemble and service all STIHL products for the customer, with limited exceptions. Certain battery and corded electric products may be sold to the customer in the box, but must be assembled if requested by the customer. With the exception of chain saws and pole pruners, all corded electric, AK, and AI units, as well as the HSA 25, RMA 510, FSA 85, HSA 66 and BGA 85, may be sold in the box. This list may change from time to time at STIHL's sole discretion. Please contact your Distributor or STIHL for the most up to date list of products which may be sold in the box.
- If the customer wishes to purchase an eligible battery powered or corded electric product in the box, the retailer must still follow all other requirements stated in these guidelines (e.g., explanation of use, providing manuals and other literature and warnings, product registration).
- Retailer must maintain a display unit for demonstration purposes for all STIHL products sold in the box.
- Demonstrate the correct way of turning the machine on and off and explain any safety features to the customer.
- Wear personal protective apparel and protective equipment when doing product demonstrations.
- Have the customer acknowledge that all safety information was provided and understood. Explain the limited warranty coverage and submit the product registration through STIHL eService or a STIHL EDGE kiosk.
- Ask the customer to view the STIHL safety video or DVDs containing safety precautions for the power equipment being sold. Show this film to regular customers while their equipment is being serviced.
- Familiarize yourself, your staff and your customers with the Instruction Manuals and the safety precautions they contain. For chain saws, for example, discuss kickback, pushback and pull-in; for brushcutters, discuss kickout and thrown objects; and for cut-off machines, discuss pull away, climbing and rotational forces, including kickback. Describe the causes of reactive forces and how to avoid them.
- Discuss the proper cutting attachments and

safety-related features for all products, e.g., circular saw blades should not be used on FS, FSE or FSA units with loop handles; toothed saw blades should not be used on TS units; fuel tank caps should always be checked for tightness, etc.

- Do not use obsolete Instruction Manuals or sales literature. If you have any questions concerning whether any particular sales literature or Instruction Manual may be outdated, contact your Distributor or STIHL Incorporated.
- Remind customers to read the Instruction Manual thoroughly before use and to follow all safety precautions – improper use can cause serious or fatal injury. All STIHL Instruction and Safety Manuals are available for download at www.stihlusa.com/manuals/. These instructions and safety precautions can reduce the risk of injury to your customers. Advise the customer that anyone using the product must first read and understand the Instruction Manual.
- Do not place unauthorized attachments or unauthorized replacement parts not manufactured by STIHL on STIHL powerheads.
- Never disconnect, remove or de-activate any safety device or control on the equipment. It is good practice to note on a repair work order any modifications, removal or de-activation of safety equipment on any product brought into your shop. Call these to the attention of the customer and recommend that any such matters be corrected, and the equipment put in proper operating condition. If the customer refuses, note that on the repair work order.
- Keep accurate records of inventory, sales dates, serial numbers and repairs to STIHL products.
- The Retailer invoice should give the name of the purchaser, model and serial number of the equipment and the date purchased.
- STIHL offers warning labels as spare parts and Safety Manuals for chain saws, cut-off machines and brushcutters free of charge. Spanish versions are also available. Provide this safety information to your customers when a product is brought in for repair. If any label is missing or damaged, place the appropriate warning label on the equipment. Part number 0000 967 3613 is the warning label to be used exclusively for chain saws. Part number 0000 967 3909 is the warning label for power tools. Offer the customer the appropriate Safety Manual.

CHAIN SAWS

Make sure that you read and understand the kickback requirements contained in the applicable chain saw standards (e.g., ANSI/OPEI B175.1 and UL 60745-2-13).

STIHL has developed a color code system to make it easier to identify bar and chain combinations that comply with the applicable kickback provisions. That system and your duties under the standards are explained in the STIHL Bar and Chain Catalog. If you do not have a copy of this booklet, call your Distributor or STIHL Incorporated.

Please explain to your customers how to properly match the powerhead with the appropriate bar/chain combinations. If you sell non-complying combinations or fail to adequately warn customers who purchase non-complying combinations, you may increase the risk of kickback injury.

ACCIDENT REPORTING GUIDELINES FOR RETAILERS

Customers may approach you with claims of personal injury or property damage resulting from what they feel is a "defect" or mechanical malfunction in a STIHL product. In order to properly evaluate these claims, it is necessary to quickly obtain as many facts as possible. We recommend that you use the following approach in order to obtain information.

1. Let the customer know STIHL is concerned that one of its products is involved. Express a willingness to listen to the situation and tell your customer that you will need to get some information about the problem in order to understand what happened. Beware of making generalized statements, e.g., "Yep, they all do that sometimes." Any discussions you may have about the accident or the product may later be evidence in court, if a lawsuit is filed. Therefore, you should not make any commitments or personal judgments about the accident. You should not comment on whether the product was "defective" or whether it malfunctioned.
2. Obtain the model and serial number of the product involved. If a chain saw is involved, obtain the bar length, brand and type, gauge, pitch and condition of the chain. If not a chain saw, obtain information on the working attachment or tool.
3. Ask the customer to explain what happened. Complete an Accident Information Sheet with as much detail as possible. Have the customer sign the completed information sheet and offer the customer a copy. It is important to know who was at the accident site, specifically when and where the accident occurred, what the claimant was doing at the time the accident occurred, what happened, and how the customer thinks the accident happened. Obtain as may details as possible about these items.
4. Ask what treatments the customer received and from which physicians or hospitals.
5. Determine the history of the product, including its general uses, when and where it was purchased, service and maintenance history, and any additional information about adjustments or modifications. Do a record check and make copies of any product registrations, invoices, work orders, etc., and forward them along with the Accident Information Sheet to STIHL Incorporated as soon as possible.
6. Sign the Accident Information Sheet and forward it immediately to STIHL Incorporated. Fax (757) 486-9185.
7. If there appears to be a significant injury or property damage, notify STIHL Incorporated by telephone at (757) 785-1362 or contact your Distributor as soon as possible.
8. Request that the product involved be brought in for a complete inspection. Because a product involved in an accident is potential evidence, do not disassemble, repair, alter or adjust any product involved in an accident until authorized to do so. Offer to replace the product so that the original unit can be examined by a STIHL Incorporated representative. If the customer rejects your offer, examine the product carefully yourself; make notes on your findings and thoroughly photograph the product.

Attention: STIHL Retailers

Because the laws dealing with personal injuries from products are subject to various interpretations, STIHL strongly urges all Retailers to adopt a disclaimer to help protect themselves against possible lawsuits. We suggest Retailers use a form similar to that shown below when a customer brings in a unit that has a safety device removed or de-activated, or otherwise in an unsafe condition (e.g., unauthorized cutting attachment) and the customer declines corrective action.

Notice

I have been advised by (Retailer name and address) that certain hazardous and unsafe conditions exist concerning _____ on this _____ unit or machine. I understand that these conditions are dangerous and can result in personal injury or property damage to the operator or any individuals in the area where this unit is operated. I do not desire to repair or correct this hazard at this time, and I hereby absolve and release (Name of Retailer)_____ and their employees of any responsibility or liability concerning this matter and accept all liability myself, and shall hold (Name of Retailer)_____ and their employees harmless, and shall indemnify (Name of Retailer)_____ or their employees in the event of any injury and any cost incurred by them in the event of a claim or demand made concerning any such injury or property damage.
